WOMAN ACCUSES LOVER WITH MURDERING FOUR

VICTIM LOST 2 QUARTS OF BLOOD, SAYS WITNESS

Nurse Gives Damaging Evidence Against Dr. Hyde in Murder Trial.

DEFENSE ENDEAVORS TO PREVENT TESTIMONY

Accused's Wife Made Him Stop Bleeding Hunton, Miss Keller Asserts.

KANSAS CITY, Mo., April 20.—Following the overruling of the defense's objection to testimony not touching directly upon the death of Colonel Thomas H. Swepe being introduced into the Hyde murder trial, Miss Pearl Keller, a nurse, resumed the witness stand at 10:55 o'clock this morning.

The particular point upon which the defense objected was a giving of details of James Moss Hunton's death. The court held that the State was attempting to prove motive on the part of Dr. Hyde in the alleged killing of Hunton.

Miss Keller immediately began to tell of the death of Hunton. He was suffering from a stroke of apoplexy when Dr. Hyde was called. He and Dr. G. T. Twyman bled the patient.

DREW TWO QUARTS.

"Dr. Hyde made the incision in Hunton's arm," said the witness. "After a pint of blood had been drawn, Dr. Twyman suggested that I had been enough bleeding. Dr. Hyde desisted from this opinion, and more blood was drawn."

"Then Mrs. Hyde said to her husband: 'Dearie I think you had better stop bleeding.'"

"Dr. Hyde then closed the wound."

"I took charge of the blood and upon measuring it found there was two quarts."

Attorneys for Dr. Hyde made frequent objections to the testimony. Again the charge was made that the death of Hunton was irrelevant.

WANTED NURSE'S AID.

The conversation which is said to have taken place between Miss Keller and Dr. Hyde, in which the physician is alleged to have sought the aid of the nurse in having himself appointed executor to succeed Hunton was entered into.

"While the undertaker was still in the house, caring for the body of Hunton, Dr. Hyde met me in the hall and said he wanted to talk with me," she said. "A few minutes later I talked with him and he said: 'Pearl you have influence with Colonel Swepe, and I want you to see that I am made administrator in Hunton's stead.'"

"I told him I could not do this."

Colonel Swepe did not know of the death of Hunton until Saturday, October 2 the day following the demise of the nurse. It was Miss Keller who informed him of the death.

WAS STILL ANXIOUS.

"When Dr. Hyde came to the house the night of October 2," she continued, "we met in a hall. He asked me if I had spoken to Colonel Swepe regarding the appointment of an administrator to succeed Hunton. I told him I had not. The physician made no reply."

The last day of Colonel Swepe's life was entered upon at this point. "What was Colonel Swepe's condition when you first saw him on the morning of October 3," asked Attorney Reed for the State.

"He was bright and cheerful," replied the witness.

After Miss Keller had answered a few questions regarding the nature of Colonel Swepe's breakfast on the day he died, the noon adjournment was taken.

TRAIN BANDITS BEHIND BARS, BLAKELY THINKS

Fireman Believes Arrest of Franklin and Hanson Has Ended Pursuit.

ENGINEER MARSH CALLED TO IDENTIFY

Alibi of the Two Suspects Believed to Be of Whole Cloth.

Engineer Marsh and Fireman Blakely of the China and Japan fast mails, which was held up and robbed by two men near Benicia Saturday night, presented themselves at the police station at noon today and partially identified the two suspects held there, who were arrested in San Francisco yesterday afternoon by Detectives McNulty and Green.

Fireman Blakely was shown to the two suspects while they stood in a line-up of the prisoners now in the jail. He immediately pointed out Fred Hansen, the shorter of the two suspects, and stated that in his belief the Oakland police had succeeded in capturing at least one of the bandits. He later declared that he could not be positive of his identification because of the fact that Hansen was talking to him in an assumed voice.

"If I could get from Hansen a statement made to me in his natural voice I would have no trouble in coming to the conclusion that he was one of the bandits, and the one with whom I had the most to deal on the night of the holdup."

Engineer Marsh easily picked out the taller of the two suspects as the leader of the bandits, but also declared that he could not be positive of the identification. He pointed out, however, that the taller of the two bandits who held up the train Saturday night had a mole on his forehead between his eyes and Franklin, the suspect in the jail, bears the same mark of identification.

Captain of Detective Petersen will not make a statement that he is sure he has the bandits, but believes, he says, that the two men he has arrested are the ones wanted.

WANTS HIM TO TALK.

"If I could get from Hansen a statement made to me in his natural voice I would have no trouble in coming to the conclusion that he was one of the bandits, and the one with whom I had the most to deal on the night of the holdup."

Accused of Grafting; Will Be Extradicted

Hoffstot Is Arrested in New York On Charge of Bribery and Conspiracy.

ALBANY, N. Y., April 20.—Governor Hughes today granted the requisition for the extradition to Pittsburgh of Frank N. Hoffstot, president of the Pressed Steel Car Company, who is under indictment on a charge of conspiracy.

NEW YORK, April 20.—F. N. Hoffstot, president of the Pressed Steel Car Company, was arrested today on a warrant issued in Pittsburgh, charging him with bribery and conspiracy in connection with the Pittsburgh graft and the alleged bribing of Pittsburgh councilmen with \$40,000 in the Hotel Imperial in this city.

Hoffstot was immediately taken to the district attorney's office, where Detective Flood was served with a writ of habeas corpus ordering him to produce forthwith Hoffstot before Judge Holt in the United States Circuit Court. Flood, with his prisoner, then started for the federal building.

The writ was sued out by John D. Lindsay of counsel for Hoffstot. It is alleged in the indictment on which the warrant was found that the money was shipped to this city.

OAKLAND RAINFALL.

The weather bureau reports that .06 of an inch of rain fell for the day last, twenty-four hours, making a total of 31.41 inches for the season.

ANTI-SALOON MAN DISAPPEARS SOON AFTER MARRIAGE

LOS ANGELES, April 20.—Within less than twenty-four hours after his marriage to a Los Angeles girl, Thomas Hughes, a temperance worker who has been engaged in anti-saloon and morality crusades in Cincinnati, Chicago and more recently in San Francisco and Oakland, disappeared and his bride appeared to the police yesterday to find him. He vanished after taking one glass of beer, his wife said. Hughes married Miss Cora Beck, immediately after testifying Saturday at the trial of a hotel proprietor, whose arrest he had procured the day before. Returning home that evening from the hotel where he had registered to secure evidence, Hughes brought with him a bottle of beer, according to the story Mrs. Hughes told the police. He took one drink, she said, and fell to the floor in spasms. Mrs. Hughes hurried out for a physician, but found on her return that her husband had disappeared and she has not seen him since.

FALLS SIX FEET, DIES OF INJURIES

Civil War Veteran Is Killed by Fall From a Low Scaffolding.

BERKELEY, April 20.—A fall of less than six feet from a scaffold upon which he was working at 2115 Telegraph avenue Monday afternoon caused a fatal injury to the skull of Thomas E. Stibbens, a contractor, which later in the night resulted in his death at the Roosevelt Hospital. Physicians are puzzled as to how so short a fall should have caused so serious an injury. No one was around when Stibbens lost his balance and fell, and he was found unconscious some time after the accident by workmen. Dr. Alfred Bailey was called, and had him removed to the Roosevelt Hospital, where he died a few hours later.

Stibbens was a veteran of the Civil War and a member of the Grand Army of the Republic. He was 56 years old, a native of Ohio, and had been in the service of the United States for 34 years. He was survived by a wife, Mrs. Sarah Stibbens, and three children: Frank H., Frank E. and Harry E. Stibbens. No arrangements have been made for the funeral.

Flonzaley Quartet Finest in World

Thursday afternoon at Ye Liberty playhouse Manager Bishop and Greenbaum will introduce to our music-loving friends the Flonzaley Quartet, the world's finest of Switzerland.

As a full chamber music does not interest the general public notwithstanding the fact that it is one of the most beautiful, if not the most beautiful, of any form of musical art. The Flonzaley are a virtuoso quartet playing with all the soul and individuality of a soloist. In short, nothing like the work of this quartet has been heard here and any music lover who misses this concert will have something to sincerely regret.

The program consists of Beethoven's "Quartet" op. 13 No. 4, Haydn's op. 54 No. 2 and movements from Smerana's "Aus Mein Leben" and Max Regers' work in D minor.

Seats are on sale at Ye Liberty and the general admission will be \$1.

Royal Arch Masons Convene Across Bay

SAN FRANCISCO, April 20.—The fifty-sixth annual convention of the California Grand Chapter of Royal Arch Masons convened yesterday at Golden Gate Hotel, commencing the subordinate chapters. The morning and part of the afternoon session was devoted to the reading of the reports of the High Priest, George H. Monroe of Fresno, Grand Treasurer, Frank Pierce of Oakland, Grand Lecturer, Harry Ascroft of San Francisco and Grand Secretary W. A. Davies.

INFLUENCE OF WOMEN FELT IN RELIGION, SAYS EARL

Femininity Playing Great Part in Awakening of Moral and Social Needs.

LECTURER POINTS OUT REVIVAL IN CHURCHES

American Institutions Devoted to the Laity and Questions of Life.

Questions of the place of woman in the awakening of the nation to moral and social needs, problems of the poor pay for ministers of the gospel questions of the place the Bible has come to occupy since assailed by the higher criticism were among the matters taken up by Professor Walter Rauschenbush of the Rochester school, before a large audience at Berkeley last night, in the second of the E. T. Earl lectures, under the auspices of the Pacific Theological Seminary. His topic was the "Social Awakening of the Church." He said in part:

"There is a great social awakening running through the churches of our country. They are concentrating their interest on social questions in a new way. They are admitting a great new realm of ideas and purposes within the domain of their spiritual life. This is a new fact in American life, and to any one who comprehends the motive power of religion in history, and the plastic force exerted by the churches in the past life of our nation, this fact is of great importance. This awakening has come swiftly. It has become national in its scope only within the last five years."

"Our churches are frankly committed to the principle of democracy. They are nominating which have most fully expressed and formed the American life originated in the Puritan revolution of the Seventeenth century, and carry the traditions of that splendid movement in their thought and organization."

"The American churches are churches of the laity. A ministry with a strong clerical tone and spirit will be absorbed in church questions; but the laity are interested in the practical morality of business life, and thus our churches are predisposed to take an interest in social questions."

Sheridan in Port With 23d Infantry

SAN FRANCISCO, April 20.—Carrying the officers and the men of the Twenty-third Infantry and a large list of civilian passengers, the transport Sheridan arrived today from Manila and way ports.

The troops under command of Colonel Sharpe will be ordered to Forts Bliss, McIntosh and Clark, Texas.

VETS AROUSED WHEN KILLING OF WIRZ IS RELATED

General Chipman Tells Inside History and Old Soldiers Exhibit Fire.

BIG HALL IS FILLED WITH G. A. R. MEMBERS

Governor Gillett and Mayor Mott Extend Them a Big Welcome.

As long as a member of the Grand Army of the Republic survives the spirit of patriotism, the love of liberty and loyalty to the flag and the principles which it represents will surely flourish in the land. That fact was clearly demonstrated at the Grand Army department encampment camp fire held at Rice Institute last night, and presided over by Comrade William R. Bair, chairman of the executive committee. The spacious hall was handsomely decorated in the national colors and every foot of space on platform, floor and galleries was occupied by the veterans of the Civil War and their friends, and every patriotic sentiment expressed—and the very atmosphere was saturated with patriotism—was applauded to the echo.

The evening's entertainment was full of interesting incidents, in which the life and drum corps of Los Angeles, the band of the "Fountain of Youth" and the "Knights of Pythias" cut a conspicuous figure. But the exposure of General Chipman of the inside history of the trial and execution of Captain Wirz and his alleged martyrdom aroused the old war spirit of the veterans and created the sensational scene of the evening.

WELCOMED BY MOTT.

In an eloquent speech pointed throughout with patriotic periods, which called forth prolonged round of applause, Mayor Frank K. Mott heartily welcomed the Grand Army veterans to Oakland and extended to them the freedom of the city during their stay. No less hearty was the welcome which Governor James N. Gillett gave to the visiting members to the State encampment.

"Indeed," he said, "it would be vain to bid you welcome to any State of the union or of the union itself, for the country is yours, as you won and saved it."

Excitement reached its height when General N. Chipman, judge advocate at the trial of Captain Henry Wirz, commander of Andersonville prison where 13,000 Union soldiers were killed or starved to death, declared that the Daughters of the Southern Confederacy were wakening the breach between the north and south in erecting a station in Wirz overlooking the graves of the union men at Andersonville. He declared that tablets bearing words to the effect that he was a martyr, judicially murdered by the United States government.

"Tear it down, tear it down," shouted the old veterans as they listened to the speech, and for a time excitement reached a high pitch.

General Chipman spoke on the subject, "Was Captain Wirz a Martyr?" and he went over most of the evidence in the trial when the southern officer was found guilty by a military commission and hanged by order of the United States government.

CALLS HIM SLAYER.

"These daughters of the south," said the general, "have now erected within sight of the graves of the 12,000 union soldiers this station on which it is declared that their murderer was a martyr and himself murdered by our government."

"Is this the kind of history that will be taught to the young of the south? If it is, God help us. This man was convicted by the testimony of his own soldiers and a surgeon in the employ of the Confederacy, of the personal murder of thirteen union men, and now they say that he was a martyr and

SLAYER OF WATCHMAN BETRAYED TO POLICE BY FORMER SWEETHEART

She Charges Him With Killing of Deputy Sheriff Lindquist and a Score of Other Crimes About the Bay—Was Drug Store Bandit

Crimes Galore Charged To Four-Time Murderer

Murdered Bookkeeper Schneider at the Hammam Baths on Eddy street in San Francisco. Murdered an electric car motorman in San Francisco. Murdered Deputy Sheriff A. W. Lindquist in Oakland. Murdered Night Watchman Whybark in Santa Clara. Identified as the drug store bandit of San Francisco. Committed numerous burglaries in San Mateo, Santa Clara and San Jose.

Held up a bakery in San Francisco. Shot a man in Oakland and laid him up in hospital for six months.

Held up several Oakland women on the streets and robbed them of diamonds and other jewelry, together with money.

Robbed a saloon in Fitchburg.

Held up a woman at the corner of Fifteenth street and Twenty-third avenue, Oakland.

Drugged a man in his room in Oakland and robbed him of diamonds.

Committed numerous other burglaries and participated in numerous other street robberies in San Francisco and Oakland.

Charles Chifton, the young Mexican who confessed to the murder of Night Watchman Whybark at Santa Clara after his arrest and who is now confined in the county jail at San Jose, has been betrayed by Anna Bell, his former mistress, as the murderer of Deputy Sheriff A. W. Lindquist, who was shot to death in the hold-up of Al Moore's saloon last January on San Pablo avenue, near the Alameda county line. He has also been positively identified by Moore as the thug who attack his place and murdered Lindquist to make good his escape.

Ever since the arrest of Chifton for the Whybark killing the authorities of both Alameda and Santa Clara counties, through the Bell woman, have been fastening upon him a long line of burglaries and desperate hold-ups in Oakland and other transbay cities. He has been identified as the drug store bandit of San Francisco, who also murdered Bookkeeper Schneider at the Burns Hammam Baths on Eddy street, and still another murder, that of an electric car motorman in San Francisco, has been traced to him.

Although but 23 years of age Chifton, according to Sheriff Frank Barnett, has a record of lawbreaking that stamps him as one of the arch-criminals of the age. He has crowded more daring and vicious crimes into his comparatively brief career of lawlessness than the ordinary outlaw could commit in a lifetime.

CURSED THE WOMAN.

Chifton is a handsome, demonaic youth and bears none of the characteristics of a confirmed criminal of the most vicious type. He had a foul mouth, however, and the manner in which he cursed the woman who betrayed him in the county jail at San Jose yesterday, in the presence of authorities, gave the officers a good insight into the latent degeneracy of his character.

Sheriff Barnett and Marshal Chris Miller of Albany, accompanied by Al Moore, the San Pablo saloon-keeper, spent yesterday in San Jose investigating Deputy Sheriff Lindquist's murder, and it was during this mission that Chifton's mistress betrayed to the authorities so much of her former lover's criminal career. Chifton denounced the woman as a liar and strenuously denied the crimes she connected him with, but her story was so straight that the authorities could see the prisoner grow pale under the accusations hurled at him.

Aside from the Barnett party and the Sheriff of Santa Clara county, Chief of Police Ed Haley and Detective Ray Starbird of the San Jose police department, who worked up the Whybark murder, were present at the interview between Anna Bell and Chifton and at times it looked as if the prisoner would break down under her series of rapid-fire charges and admit everything.

When a confession seemed to be on the end of his tongue and would muster up renewed courage and rage that the whole story was false and that the Bell woman was trying to railroad him to the gallows for a beating he

(Continued on Page 2)

gave her on the day before his arrest. It was after Chifton had been taken into custody in San Jose for burglary that the Whybark murder was revealed upon him with such certainty of facts that he finally broke down and confessed to having committed it.

Chifton's downfall dates from the tenth day of last January when he met Anna Bell in Oakland and went to live with her at the Erusnik Hotel, corner of Ninth and Washington streets. With this as headquarters he continued to commit burglaries and holdups, with an occasional murder, but without her knowledge until one night while returning home from a theater when an incident occurred which led to the revelation to her the next day that he was a criminal.

STOLE GOWN FOR HER.

As the couple were passing a store on Broadway near Ninth street, the Bell woman saw a pretty tailor-made gown in the show window and she exclaimed, "How I would like to have that!"

Chifton said nothing, but the next night he went home with a bundle under his arm. He handed it to the Bell woman with the remark, "Here's your dress." She opened the package and there was the suit she had so much admired.

"Just say nothing," was the warning that Chifton gave the woman, and then he told her that he had done to secure it. "I'm losing his overcoat against the large window glass to muffle the noise."

Gained 23 Pounds Appetite and Strength

MR. MAX SIMONS

use one bottle of Duffy's Malt every week, because it is the purest and best I can buy.—Max Simons, 2619 East Clearfield St., Philadelphia, Pa.

No medicine has stood the test of fifty years like Duffy's Pure Malt Whiskey, and always been found absolutely pure and full of good medicinal virtue. Men and women in all walks of life who have been benefited join in singing its praises as the true elixir of life which invigorates body, brain and nerve.

Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and enjoy perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, grippe, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting, weakening conditions. Prescribed by physicians and recognized as a family medicine everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in sealed bottles only—never in bulk. Look for the trade-mark "Old Chemist" on the label, and make sure the seal over the cork is unbroken. Price \$1 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., the doctor's advice and an illustrated medical booklet, containing testimonials and rare common sense rules for health, both sent free.

Merry War Coming With the Squatters

STEWART, B. C., April 20. — A gold camp has sprung up at the mouth of Salmon river, about two miles from Stewart, on the Alaska side of the boundary line. About 1000 men have been staked by squatters and there is a serious conflict between them and the government. There is no official government survey, but in order to prevent confusion, the squatters have organized a sort of vigilance committee to land together and stand off squatters who try to jump the claims of original settlers. At a meeting of squatters the settlement was named "Overland City," and the squatters broke champagne on their stakes at the christening.

A report has come from Ketchikan that people from all over Alaska are trekking to the new camp. Reports of rich surface showings of the Salmon river valley has spread very quickly.

Some men are so cautious they are always waiting to begin.

Junior Men Will Be Hosts at Big Supper

BERKELEY, April 20.—A complete program has been arranged for the Junior men's banquet, which is to be held April 25 at the Elbow Club in San Francisco. Both music and speeches being included in the evening's entertainment.

The "Hook Worm" quartet, composed of R. B. Hinch, A. C. Saxo, L. B. Marchant and L. V. Auger, will render several selections.

G. A. Work will act as toastmaster, and has announced the following speakers: Jay Dwygins on football; Billy Greenwood, on the national game; G. A. Haines, on the "Why and Wherefore" of the A. S. C. C.; John Pike on granding in the A. S. C. C.; and a grand finale by the "Co-education" quartet.

"Doc" Gamble will talk on "Co-education."

Leonard to Lecture
On Christian Science

Frank Leonard, noted Christian Science lecturer, will deliver an address on the purposes and principles of that religion at the Macedonia theater tomorrow evening.

Leonard, who has been prominently affiliated with religious work for several years, is an orator of note, and as a member of the Board of Lecturers of the First Church of Christ, Scientist, in Boston, is making a tour of the continent. The lecture will begin at 8 o'clock sharp.

"Corpse" Turns Over After Being Buried

YOUNGSTOWN, O., April 19.—After being buried a day and a half in Oak Hill cemetery, the body of Mrs. Callie Jefferson, a colored woman, was exhumed after persistent requests from the Rev. Dennis Woodson, who said she had been buried alive.

The corpse was found lying face down, having turned completely over since interment. The Rev. Mr. Woodson said the woman was dead and the grave was filled in again.

The undertaker declared the body was placed in the casket face upward and at a loss to account for the fact that it had turned over.

WOMAN ACCUSES LOVER WITH MURDERING FOUR

Slayer of Watchman Betrayed by Former Sweetheart and Charged With Score of Crimes Around the Bay

(Continued from Page 1)

he had broken in the glass and secured the dress.

The Bell woman related the details of this and numerous other robberies that Chifton had committed, and about the authorities in the presence of her prisoner. She was unable to give names and places and dates of the numerous crimes, in which she implicated Chifton, but these Sheriff Barnett, with the co-operation of Chief of Detectives Peterson of the Oakland police department and Chief of Police Martin of San Francisco, has begun to supply and gather evidence upon.

Dr. Gleason of the Gleason-Courteney drug store in San Francisco, has positively identified Chifton as the drug store bandit, and the prisoner's former mistress positively declares that he killed Deputy Sheriff Lindquist and the electric car motorist in San Francisco. She does not know a great deal about the latter killing, but with reference to the slaying of Lindquist she told the authorities that for several days prior to the holding of Moore's saloon and the murder of Lindquist Chifton spotted the place and laid his plans for the robbery.

"GOT HIM GOOD," HE SAID.

On the night of the murder Chifton took his mistress to the theater and upon returning home said to her:

"I have my plans all laid now to get that Saloon (Moore's) on San Pablo avenue. I am going out and get it."

Chifton was away from his hotel about three hours and when he returned his clothes were wet and muddy and he was in an ugly frame of mind. The Bell woman asked him what had occurred and he began to curse his ill luck.

"They got me on the job," he said, "and I had to shoot a man twice who was dressed in a police uniform and who looked like a detective. Then in making my getaway another fellow shot at me through the door and I came close to getting hit."

"Did you get the other man?" the Bell woman asked.

"I certainly did," replied Chifton, "and I believe I got him good."

KEPT PAPERS FROM HER.

This was all the details the Bell woman could give the officers about the Lindquist shooting because, as she explained, Chifton would not talk about it afterwards and kept from her the newspaper accounts of the crime. She did not even know that Lindquist was dead until Sheriff Barnett told her.

Other crimes that the prisoner's mistress could recall that Chifton had done were burglaries and robberies in the transbay cities and other crimes. They were told of a tailor shop at Fifteenth street and of a third-story apartment in Oakland, and the Piva barber shop at Highland, East Oakland; a burglary in San Francisco, the robbery of the second-hand store in Oakland, up a robbery of a saloon in the streets of Oakland, and robbing them of diamonds and other jewelry and money.

PERSONAL MENTION

MRS. T. G. JUDKINS and son, Calver, have returned from a week-end spent at Brookdale in the Santa Cruz mountains.

H. C. INGRAM and E. P. HELD were speakers at a banquet given by the California Business Managers' Association, held in Sacramento last week.

HENRY M. RIDEOUT has gone to Marysville, where he will visit with relatives for a few days.

MR. AND MRS. JOHN A. MOORE, who have been visiting here for some time, returned to their home in Santa Cruz the first of the week.

E. F. HOLLAND has returned from a short visit with his cousin, Henry Crowley, in Watsonville.

MRS. C. F. RILEY has returned from a visit with her parents, Mr. and Mrs. T. H. Thompson, in Tulare.

F. R. WEBSTER was a recent business visitor in Marysville.

MRS. W. S. PHELAN has returned from a week's visit in the vicinity of Pierceville.

MR. AND MRS. DR. FLETCHER were weekend visitors in Martinez.

ATTORNEY M. KIRK went to Vallejo the latter part of the week.

MRS. M. E. JONES is a visitor in the home of Mrs. R. P. Webster in Sacramento.

MR. AND MRS. JAMES M. SPEEGLE and children spent a few days the first of the week with friends and relatives in Santa Rosa.

H. C. SPAULDING went to Santa Cruz the latter part of the week to visit his sister, Mrs. L. D. Feich.

MRS. A. P. HOLLAND spent the week-end at her cottage in Brookdale.

RALPH YOUNG spent Sunday with friends in Petaluma.

MR. AND MRS. C. A. ROE were recent visitors in Fresno.

H. G. MORROW is spending a few days in Reno on business.

DR. AND MRS. CHARLES GROSS have gone to Santa Cruz, where they will spend a few days in recreation, visiting in Ben Lomond while away.

WILLIAM F. GORE has returned from Greenport, N. Y., where he visited for several days.

MRS. GEORGE W. BURNELL is the guest of Mrs. S. E. Crow in Santa Barbara.

MRS. H. J. FAULKNER and children have been spending a vacation with friends in Camp Hill.

ERED PICKETT was a visitor at the home of Mrs. W. S. Haind, in Campbell over Sunday.

MRS. J. C. CUSHING, who has been visiting with friends in Kingston, returned to her home in this city the first of the week.

the robbery of a saloon in Fitchburg, doing a man in his room in Oakland and robbing him of diamonds, and numerous burglaries and highway jobs in San Mateo, Santa Clara and San Jose.

The woman told the authorities that Chifton had told her that on account of some jobs he had his brother had committed in Seattle he had to leave there and that he was still working in conjunction with his brother and another man named "Ed." While operating in this section, the woman said, Chifton lived most of the time in Oakland, but occasionally went to San Francisco to live while operating there. It was shortly after the Lindquist murder that Chifton and the man went to San Jose, and from that time until his arrest the prisoner made that city his headquarters.

When asked why she had betrayed Chifton to the authorities the Bell woman said that it was because the ill treatment she had received from him after they left Oakland. He had beaten and abused her until she became afraid of him, and fearing she would be killed she decided to turn him over to the authorities. She said she was not a good person and that she was not worthy of Chifton, but that she was not a good person and that she was not worthy of Chifton.

BELL WOMAN IS HELD.

The Bell woman is also in custody at San Jose and will be taken to the Alameda county and San Francisco authorities to interview her further mind. The Bell woman asked him with reference to crimes they are now tracing down on the information, she has already account in the courts of Santa Clara county for the murder of Whyback, and if allowed to plead guilty to second-degree murder, which will send him to the state penitentiary for life, Sheriff Barnett will do his best to have him brought here to stand trial for the shooting of Deputy Sheriff Lindquist.

This can be done under the law, and if first-degree murder can be made to stick against him here he will go to the gallows. In addition to this, the charge of murdering Bookkeeper Schneider at the Hammam Baths in San Francisco and of slaying the electric car motorist around the bay are being carried against him. Barnett thinks there will be no trouble in tracing the murder of Lindquist to Chifton, claiming that he already has sufficient evidence to convict him of the crime.

MRS. J. C. CUSHING, who has been visiting with friends in Kingston, returned to her home in this city the first of the week.

SIX MONTHS WEAR

SIX MONTHS TEAR

"Holeproof" Costs No More Than Others

There are just two kinds of hosiery—the kind that wears and the kind that tears. Yet they both sell for the same price.

Certainly you would not buy unguaranteed hosiery when for the same money you can get the famous "Holeproof" guaranteed against holes for six months, six times as long.

Every box of Holeproof Hosiery contains a written guarantee. If any holes appear within six months you present the guarantee and get new hosiery free.

This hosiery is as smooth and soft as silk. It is shaped to fit the ankle like a glove fits the hand—it is both stylish and comfortable.

Learn what this hosiery really is—come in and see it for yourself today. Price from 25 to 50 cents a pair.

SHOUP GETS DESERVED PROMOTION FROM S. P.

Formerly in Charge of Company's Oil Properties He Is Chosen as Assistant General Manager—Will Control Electric Lines

SAN FRANCISCO, April 20. — Vice-President and General Manager E. E. Calvin of the Southern Pacific Company, announced yesterday the promotion of Paul Shoup to the position of assistant general manager of the company in charge of its electric lines. The promotion went into effect, in fact, on Monday, having received the approval of Julius Kruttschnitt, director of maintenance and operation of the Harriman railroad system.

According to the order of promotion issued, Mr. Shoup will, in addition to his duties as assistant general manager in charge of the company's electric lines, "perform such other duties as may be assigned to him by the general manager."

Mr. Shoup is one of the most popular men in the Southern Pacific Company's service. In his new position he assumes the management of all of the electric railways controlled by the company, which include the Peninsula Railroad, centered at San Jose, the Los Angeles Pacific Railway, whose lines radiate from Los Angeles, the various lines located on the eastern side of the bay feeding the company's ferries, which are now being electrified and extended, and other properties.

Mr. Shoup has been in the service of the Southern Pacific Company for many years. He has gradually risen step by step, every promotion being, however, substantial in its character. For a time he was assistant general passenger agent, but when the Southern Pacific Company acquired large oil interests in the State he was transferred to the office of William F. Herrin, the company's general counsel, to assume their management. He was in charge of these oil properties when the order of promotion to the position of assistant general manager in charge of the electric lines was issued.

ITALIAN TO LEAVE HIS WIFE AT HOME ON HIS HONEYMOON

GLOBE, Arizona, April 20.—Leaving his bride behind, George Castagnetto, a member of the Italian Colony, left yesterday morning for Italy to spend his honeymoon alone. Castagnetto had planned a time, but in the meantime he fell in love with Louise Bonine, and she consented to marry him. But she knew nothing of his plan until he announced them following the wedding Monday night.

A woman is pretty sure to love a man if it's going to make her more miserable than not to.

His Master's Voice

Perfect-est

A new word! But a new word is needed to describe the height of perfection reached in the new Victor Records.

So great is the improvement that we made over, at a cost of a half-million dollars, practically our entire list of Victor Records—records universally acknowledged to be perfect.

And the result is a record that plays clearer and sweeter and better than ever before.

Take one of your old Victor Records to any dealer's and hear it in comparison with a new Victor Record of the same selection.

The Victor Record catalogue lists more than 5000 selections, both single- and double-faced records. Same quality—only difference is in price. Buy double-faced if the combination suits you.

And be sure to hear the Victrola

New Victor Records are on sale at all dealers on the 28th of each month.

WIRZ CALLED MARTYR ON MONUMENT TABLET

"Tear It Down," Cry Veterans at Campfire; Excitement Runs High.

(Continued from Page 1)

have erected this statue of him, bearing on its sides inscription to this effect: "Lincoln is the best loved American only by Washington. He was great enough to fight for a great cause and big enough to understand those who fought against him."

"Although he came of illiterate antecedents his literary efforts in later years were 'pure wells of English undefiled.' His Gettysburg address stands as the 'greatest, briefest and most perfect eulogy ever created.'"

"The nation that has produced a Lincoln will produce another to take his place in any future crisis, which may threaten the public safety."

TRIBUTE TO WOMEN.

Col. C. Mason Kinne paid a beautiful tribute to the women's auxiliary of the G. A. R., the Women's Relief Corps. He declared that the men on the field in the Civil War were aided and strengthened by the women who remained at home and told their loved ones to remain in the field until all the battles were won.

Col. Jesse E. Fuller, pension agent of the Pacific section, talked to the veterans on the pension system and explained to them how his office was conducted. His talk was a most interesting one to the old men assembled as few of them indicated by their attention that they had ever previously heard about the mechanism of the pension service. Col. Fuller explained that he paid 14,000 pensioners each quarter, representing \$1,800,000.

Spoke of Lincoln.

Dr. E. R. Dille, the well known Methodist minister of San Francisco, spoke of Abraham Lincoln in a brief and interesting talk. He said:

"Lincoln is the best loved American only by Washington. He was great enough to fight for a great cause and big enough to understand those who fought against him."

"Although he came of illiterate antecedents his literary efforts in later years were 'pure wells of English undefiled.' His Gettysburg address stands as the 'greatest, briefest and most perfect eulogy ever created.'"

"The nation that has produced a Lincoln will produce another to take his place in any future crisis, which may threaten the public safety."

TWINS PLENTIFUL, TRIPLETS SCARCE

Fruitvale Eagles Seek Infantile Trios for Entrance in Baby Contest.

FRUITVALE, April 20.—Twins galore, but no triplets. From all of Alameda county which has been scoured from end to end, no triplets can be found at this stage of the contest to enter in the baby show and parade that will be held by the Eagles' street fair and carnival committee.

Hollan is being swamped with letters of proud parents who would enter their youngsters in the contest. Twins of all descriptions are young to the blue ribbon, but so far triplets have been lacking and the members of the committee say that if none are entered within the next two days will seek the aid of the census bureau in discovering handsome triplets of Alameda county infants and if the search has been unsuccessful in this distribution in other neighboring counties it may be that applications for the entrance of triplets in the big contest will be received from other counties as well as Alameda.

MANY BEAUTIES. It is claimed by the members of the baby show committee of the carnival that the most handsome babies have been entered in the race that

have ever been in a similar contest about the bay and among the pictures of infant aspirants for prizes are a great many who will make the judges sit up and take notice in making their decisions.

Although the contest did not open until last week already there are a large number of infants entered in the race and it is thought that the feature of the carnival will be one of the most attractive of the many details that have been planned for the five days of merry-making and fun.

Among the twelve babies that have been entered in the contest, there is much speculation as to which should receive first honors. These are: Baby Louise, Oakland; Little Helen Moore, Oakland; P. W. Woodcock, Fruitvale; Baby Starr Lynn, McRae; Susie Vielhauer, Fruitvale; Miss Beatrice Benson, Alameda; Carl Jorgensen, Hollach, Oakland; Eleanor Sonnenwald, Fruitvale; Robert C. Kruse, San Leandro; Merrick M. Rees, Fruitvale; Edwin and Alice Vielhauer, Fruitvale.

UNIQUE LINES. The contest is being carried on along unique lines and a novel idea will be carried out in making the choice of prize-winning tots. It has been arranged that those in the contest will rather at the corner of East Fourteenth and East Fourteenth street, each babe to be in a baby carriage which will be wheeled by his mother.

At that place a parade will be formed, which will make its way along East Fourteenth street to Fruitvale avenue, at which corner the judges' stand will be located, and a stop will be made by each carriage until the merits of its contents can be considered by the appointed judges.

From thence the baby parade will continue to the Lyric Lane, which will be the center of the fair grounds, located one block south of East Fourteenth street on Fruitvale avenue, in the Debs' block. Here the greater part of the throng of visitors will be treated to a sight of the blue-ribbon youngsters.

Every baby carriage will be especially decorated in ribbons and flags for the occasion and the Knights of the Rattle of Alameda county, coming and gurgling for the delight of the thousands of visitors who will watch their progress along the avenue, will be one of the most pleasing sights of the street fair.

Prizes will be awarded for the most handsome youngster, one for the best all around babe under one year, another for one between one and two years, one for the most handsome tot between two and three and another for the best baby between three and four years. No blow-off four years will be admitted to the big contest.

Saturday night and the friends of the six contestants are working earnestly on the behalf of their favorites.

For the last week the race has been such a close one that it is impossible to forecast the winner at this stage. The count of votes made late last night places Miss Eleanor Hayden in the lead, taking first place from Miss Ada Parry by a narrow margin. Those two have been exchanging first and second place for the last two weeks, although it is rumored that large numbers of votes for Miss Louise and Miss Helen Moore will be told at the last day of the contest and an exciting race is looked for on the closing day.

Last night's count resulted as follows: Miss Eleanor Hayden, 5120;

Miss Ada Parry, 2950; Miss Ruth LeBeux, 2530; Miss E. Ballestrom, 1120; Miss Florence Magnus, 4760; and Miss Virtue Rees, 3700.

Cabrera Re-elected Guatemala President

NEW YORK, April 20.—Mamuel Estrada Cabrera was re-elected president of Guatemala in the elections ended yesterday, according to a government cable message received today at the Guatemalan consulate in this city. The election was tranquil and Senor Cabrera was chosen by "an overwhelming majority," the dispatch states.

TAFT & PENNOYER

Japan Sealers Use Motor Boats in Hunt

VICTORIA, B. C., April 20.—Japanese sealers reaching Vancouver yesterday report that motor boats are being used for seal hunting this year by some of the forty vessels sent from Japan to bring sea. International sealing regulations provide that only sail craft may be used for pelagic sealing, but Japan is not a party to the treaty and maintains that the regulations do not apply.

Standard Oil After The Deadly Mosquito

BAYONNE, N. J., April 20.—The State of New Jersey and the Standard Oil Company have gone into partnership they are to act together in ridding the city of a menace to the public health in the shape of an extensive tract of marsh land which has heretofore been a prolific breeding place for dangerous mosquitoes. Each is to bear half the expense of draining the land. The Standard has large refineries here.

The Greatest Exhibition of

Cluett SHIRTS

ever made in the history of wearing apparel is being made THIS WEEK—in this town—at your store. The Cluett label always stands for all the good qualities you expect to find in a shirt. The assortment of colors and styles will never again this season be so large as right now. \$1.50 and more.

Every Cluett Shirt bears a CLUETT label

NEXT WEEK

April 18th to 25th

The leading haberdashers will display the

JUDGE MURPHY

Moral Obligation and Party Treason.

This from the Sacramento Bee is cordially endorsed by THE TRIBUNE:

"The man who votes at the August primary is in honor bound to cast his ballot in November for the candidates of that party with which he has thereby identified himself, provided they be chosen without fraud. He cannot honestly take part in the making of the ticket, and afterwards repudiate it, should it not be to his liking."

Still our Sacramento contemporary cannot fail to be aware that Democrats are registering as Republicans in order that they may vote for a particular Republican candidate for Governor, and that some Republicans are openly saying they will vote for the Democratic nominee if their pet candidate is defeated in the primary. Theodore Bell's supporters at the Los Angeles conference based all their hopes of success on an expected bolt by the Roosevelt League faction in case Hiram Johnson is defeated for the nomination. It is notorious that Democrats are registering as Republicans in Republican counties and that Republicans are registering as Democrats in Democratic counties. This is not because of a change of politics but is due to a desire to help individual candidates in the opposition party.

It is all wrong, of course, and defeats the purpose of the direct primary law. It also destroys party cohesion and party integrity.

We agree with the Bee that a voter is in honor bound to support any ticket he helps nominate even though the particular candidates he voted for fail of the nomination. To do otherwise is bad faith.

The highest moral obligation resting on the citizen is to vote as his conscience dictates and to be governed by patriotic considerations in casting his ballot. But mere prejudice should not be permitted to usurp the place of conscience and judgment, nor should pique and disappointment serve as an excuse for treachery and bad faith. The law gives a citizen the right to vote for whom he chooses at the general election regardless of how he is registered or for whom he has voted in the primary, but the liberty granted by the law is no justification for false registration and betrayal of moral and party obligation. Mr. Bell depends upon treachery in the Republican ranks for success, hence his supporters are boosting for Johnson in the hope and belief that Johnson will be defeated in the primary. Thus we have a group of politicians who are working together in both parties and are Republicans or Democrats with an if. They propose to have their own way or vote the other ticket. They boldly lay down the proposition that acceptance of their candidates and program is the decisive test of good citizenship. It is needless to say that their position is untenable and destructive of political coherency and effective action through party organization.

The Defeat of Aldridge.

The defeat of George W. Aldridge for Congress in the Rochester district is neither a calamity nor a disappointment to Republicans throughout the country. Aldridge has been active in obstructing Governor Hughes in his efforts to improve administrative methods and elevate the party organization in the Empire State. He is one of the most obstinate and capable men of the old Platt machine which has been badly discredited by the noisome disclosures made in the Allds investigation and the insurance inquiry.

While the overwhelming defeat of Aldridge in a rock-ribbed Republican district will be heralded abroad as a Democratic victory, it is in reality an expression of public opinion regarding Aldridge and his methods. The leading Republican journals in the State of New York openly opposed his election. The New York Tribune said "his defeat would not be a calamity to the Republican party, while his election would be a discredit to the party and the State." The New York Sun said the issue in the Rochester district was one of decency rather than politics.

Neither the State nor the National administration would lift a hand to help Aldridge. The Republican Congressional campaign committee did not extend him any assistance, which was significant of the light in which Aldridge's candidacy was viewed in party circles.

Aldridge was smirched in the insurance investigation, it being shown that he had received \$1000 from the "yellow dog" fund. He acknowledged getting the money, but said he turned it into the party campaign fund, a statement that could neither be proved nor disproved. Having control of the party organization in Monroe county he forced his own nomination in an effort to secure what he deemed would be a popular vindication. He demanded a vote of confidence as a party boss, and received a tremendous rebuke. No doubt all the enemies he made during his long reign as boss fed fat their ancient grudges at the polls. They joined the general uprising against the self-nominated boss, hence the overwhelming majority for the Democratic candidate.

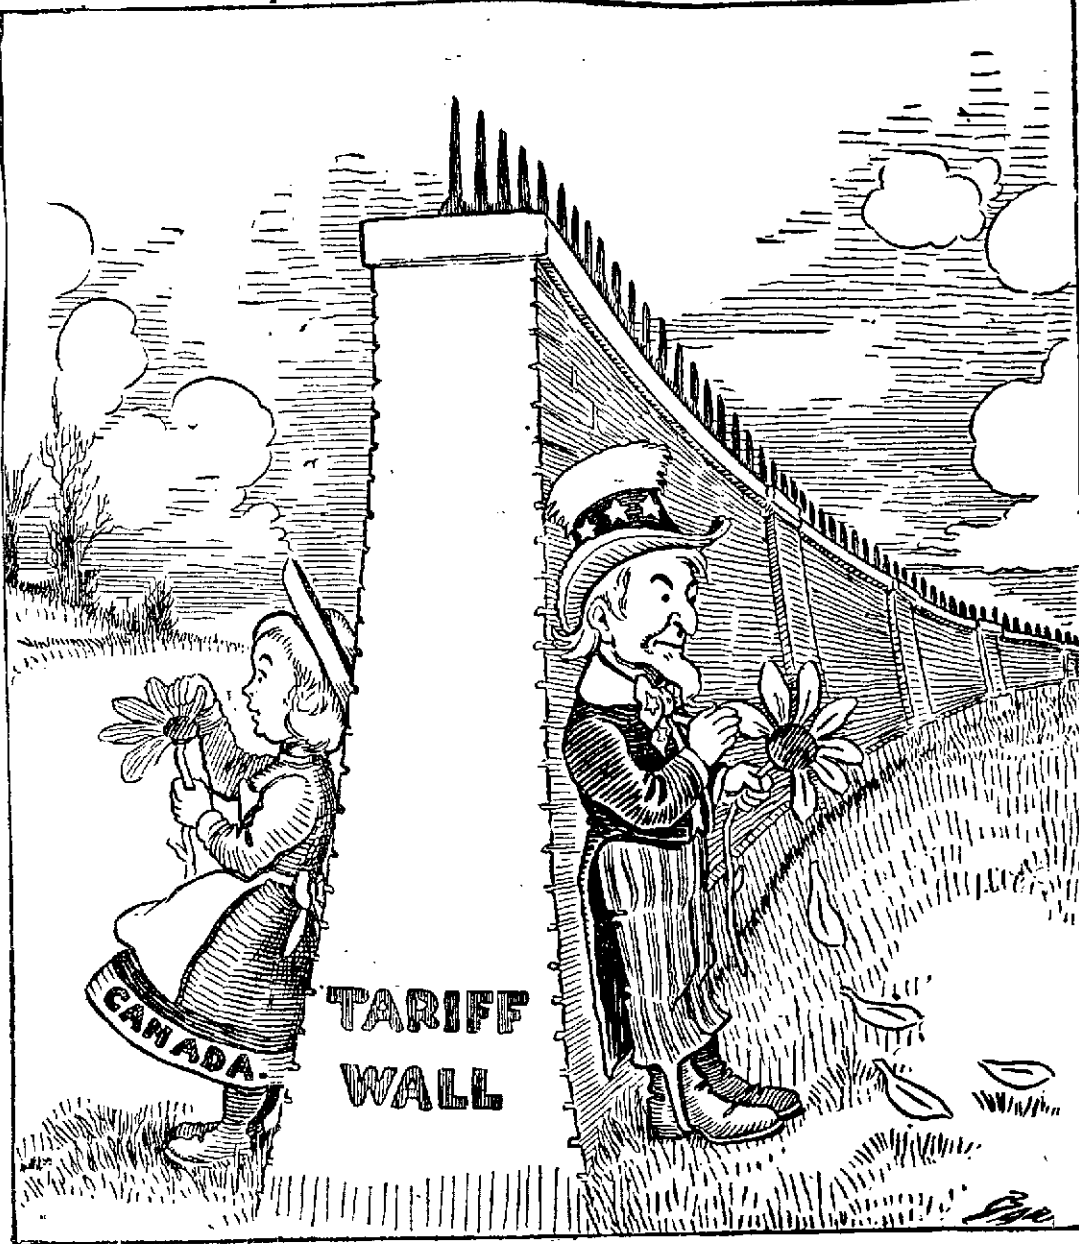

But the result will be of no permanent benefit to the Democrats. Had some Republican of good reputation been nominated instead of Aldridge he would have been elected. At the next election the Republicans will present a creditable candidate, and the district will again be represented by a man in accord with the political convictions of the great majority in Monroe county. Bossism and venal politics have been repudiated in the person of Aldridge, but the citizens of the Rochester district have not ceased to be Republicans and Protectionists.

What is the matter with Bradstreet's? That usually accurate concern seems to have fallen into the habit of misquoting the bank clearings for Oakland. The report for last week gave the bank clearings for Oakland as \$1,270,000. The real figures are \$3,270,362.20, showing a gain over the corresponding week for last year to be 81.6 per cent. This is the third time within six weeks that Bradstreet's has made the error of sending out the figure 1 for the figure 3 in the first column of the Oakland report. We can hardly believe the financial agency has any desire to discredit Oakland, but the frequency of the mistakes made to the disadvantage of this city seriously reflect on the accuracy of the weekly reports sent out by Bradstreet's. But whether the mistakes are intentional or unintentional the Oakland Clearing House and the Oakland Chamber of Commerce should take steps to prevent them in future. The erroneous figures minimize the financial operations of this city and give the outside world a false impression of the importance of Oakland.

The announcement that prayers were offered up for Pittsburg in all the churches of that city leaves one in doubt. Was the praying for relief from the presence of thieves or for their reform?

Gifford Pinchot has shown himself a great conservator of speech since his interview with Roosevelt. The ex-President knows how to stop an unpleasant noise.

SO NEAR AND YET SO FAR

Timely and Interesting Topics

The vast enterprise for the reclamation of Mesopotamia, by which 12,500,000 acres will be reclaimed and irrigated, is the subject of an extensive report from Consul Frederick Simpkins of Baghdad. Since August last from 2500 to 4000 laborers have been at work on the initial projects in Northern Mesopotamia, and substantial progress has been accomplished. It is predicted that agricultural benefits will be derived from the first of these irrigation works within two or three years, at the most.

Orchid imitations are a puzzle to flower scholars. The whole appearance of the flower is suggestive of some insect, sometimes to quite a remarkable degree. It does not seem easy to find any real resemblance, yet no one imagines that it can be accidental.

Any one who knew of the bee or orchid, a native of Europe, and came upon it for the first time, would at once recognize it. It seems to be a

large velvety brown-backed bee, variegated with yellow. The two lateral petals might serve well for the wings of the insect. In the center of the lip of the orchid there is a small bluish spot like the body of a fly. The two lateral petals are slender and curiously like the antennae of an insect. The whole illusion is complete and suggests to the casual glance that a few flies are hanging on the stem of some plant which has cast its flowers.

"While partisans are disputing as to who reached it first, and while others refuse to believe that an one accomplished the feat, the North Pole has engaged the attention of the Explorer Nansen in another way," says Figaro. "He has been putting the finishing touches to his book, 'Nord i Tangehøim'—'The Northern Mists'—and the work will soon be made public. Professor Nansen in this book reviews the work of all Arctic explorers and the geographical and ethnological data furnished by them up to the end of the sixteenth century."

Pittsburg is rejoicing in the possession of one of the most heavily insured men in the world. This is Mr. John H. Jones, president of the Pittsburg and Buffalo Coal Company, who has just completed an insurance policy for 200,000 pounds. It has been taken out by his company.

AROUND MT. ETNA

Since the opening, ten years ago, of the railway from Giarli to Catania, on the island of Sicily, Mount Etna has been the most accessible of volcanoes. This miniature line makes a complete circuit of the mountain, rising at one point to 3500 feet above sea level, and those traveling in the first-class compartment, which is fitted with glass slides, are able to enjoy the scenery in perfect comfort.

Before the construction of the railway the journey was full of peril, for Sicily is infested with bandits. Not long ago Foster Rose, who owns the largest sulphur mines in the island, was kidnapped and imprisoned for twenty days, when a ransom of \$15,000 secured his release.

Alexander Nelson Hood, an Englishman, who spends a portion of each year at Bronte, the beautiful estate presented to Admiral Nelson by Ferdinand IV, never goes beyond his garden without a mounted escort.

Bachelor's Musings

One good thing about idleness is how it repulses you to work till you get back to it.

The more head a man has for his own business the more he thinks he has for somebody else's.

Abandoned Farms in New York

Strange as it may seem that there should be in the Empire State enough deserted farms to constitute a public problem, the problem exists and is soon to be subject to a conference in this city.

Ten years ago it might fairly have been said that most deserted farms in the Eastern States were so because of some reason of practical weight—exhausted or stony soil, distance from markets or other unfavorable circumstances. For this reason the state authorities interested bestirred themselves generally to encourage the purchase of the vacant farms for summer homes by the city people, who enjoy more leisure than income, such as teachers and clergymen.

The rise in the prices of farm produce has changed this condition. Farms that were not worth cultivating ten years ago are well worth it now. Butter and cheese offer good returns, fruit pays well the trouble of any one who will fight insect pests, and even wheat may once again be sown to advantage. From end to end of England grass land has been broken up during the past year or two to grow wheat as it did in the days of the corn laws. What can be done on such limited and expensive land can be done in New York.

So long as there is unemployment in the city and a farm left idle, the problem of bringing together the jobless man and the manless land is worth attention.—New York World.

Some Things Worth Knowing

One of the big Brazilian railroads has just completed a plan by which it will send four of its mechanics to the United States every six months and put them at work in some of our big railroad shops, so that they may become familiar with American methods.

Rumors have been rife that the constitution of young Japan is degenerating year after year, says the Elben Teushinsha, but they are firmly denied by the authorities, who are of the opinion that, according to the reports of the physicians of conscripts, both constitution and weight are showing an upward tendency, on the whole, and there is not a bit of cause to justify the rumors.

Wellesley recently compiled figures showing that the total valuation of her college buildings is \$1,780,700. Since President Hazard entered upon his office in 1899, the number of students has increased from 688 to 1312, the endowment from about \$400,000 to \$800,000. Of the buildings now on the college grounds 11 have been added during this administration.

No Good Gestures

The English temperament can be dignified, but beautiful never! An Englishman would be ashamed of ascending the stairs if he thought that the action was really a beautiful one. It is all very well for actors, they seem to say. They are paid to wave their hands about, but in real life the best place for unoccupied hands is in pockets.

On the English stage it is possible for the actors to behave like Frenchmen, but on the French stage they have different, more subtle, ideals.

her office in 1899, the number of students has increased from 688 to 1312, the endowment from about \$400,000 to \$800,000. Of the buildings now on the college grounds 11 have been added during this administration.

As a diver the loon excels, and

The finest actors in the world, they act with the reserve and reticence of an average Englishman, the truth being that the stage will always reflect ideals in antagonism to actual life. In England we shall only have a better chance of seeing good acting become general when we have learned to use our hands in real life. When will that be? Perhaps never. In all my life I have seen in England but two fine gestures delivered openly and without restraint, and so rare a phenomenon has caused me to remember them very clearly.—London Express.

DESCARTES' LIFE RULES

In the discourse of Descartes upon "The Methods of Using One's Reason Rightly" he says that he had always had an intense desire to learn how to distinguish truth from falsehood in order that he might be clear about his actions and that he might be able to walk surefootedly in this life.

Therefore he resolved to set up what he termed "a provisional government," of which these were to be the rules. I give the rules as somewhat broadly paraphrased by Mr. Huxley:

First—That he would submit himself to the laws and religion in which he had been brought up.

Second—That he would act, on all occasions which called for action, promptly and according to the best of his judgment.

Third—That he would seek happiness in limiting his desires rather than in attempting to satisfy them.

Fourth—That he would make the search after truth the business of his life.

Descartes was just coming of age when he laid down for himself these rules of life.

Therefore he resolved to set up what he termed "a provisional government," of which these were to be the rules. I give the rules as somewhat broadly paraphrased by Mr. Huxley:

First—That he would submit himself to the laws and religion in which he had been brought up.

EVERYDAY Philosophy

Indifference neither thinks nor talks. Many a trial seems to be but an attempt to prove all the witnesses liars.

You can never convince a hustling circular distributor that Rome cannot be billed in a day.

Before marriage, man thinks about the way she looks; after marriage, about the way she cooks.

To court one's sweetheart is a delight, but to court one's wife is more so, and less expensive.

Men hesitate to open the door to big opportunities, for fear that the little ones already within will escape.

The author is a kind of farmer who hauls his product to market with postage stamps.

When the optimist tumbles over a stumbling block, he simply smiles and sits on it long enough to rest.

Classical musicians condemn ragtime because they prefer bragtime.—Judge.

Twenty Years Ago in Oakland

The body of John Caglianini who was drowned last week two miles below the Jenny Lind crossing of the Calaveras River has been recovered and will be brought back to this city.

A. Lillienanz and other owners of 796 feet of frontage on Telegraph avenue have asked the city council to widen the street between Twentieth and Twenty-second streets.

Masked robbers invaded the home of Mrs. Mary Chapman at 120 East Fourteenth street and steal a large number of jewels and other valuables.

Arrangements are all completed for a grand mass meeting of the Christian Endeavor societies in honor of the founder of the society, the Rev. Francis Clark. In the First Congregational Church. The Rev. C. H. Hobart is to deliver the address of welcome.

Chief Justice Bratty of the Supreme Court takes a house in Oakland for the summer months.

P. M. Remillard and Miss Bessie Remillard return from a visit to the Hawaiian Islands.

Marc Requa who has only returned from an Egyptian trip is planning another tour of foreign lands. His planned itinerary takes in China, India, Russia, Japan, Korea and Australia.

Rev. L. I. Wirt who is soon to graduate from the Pacific Theological school has received the appointment of Superintendent of the Congregational Sunday School and Fishing Society Work in Central and Northern California and Nevada.

Miss Rachael Rosenberg and Henry H. Cohen are married at the residence of the bride's parents No. 259 Eighth street.

Delegates from Lyons and Appomattox Posts start for San Jose to attend the grand encampment of the G. A. R.

The Oakland Gas Light and Heat Company announce their intention of extending their service to Alameda.

They Speak For Themselves

San Francisco, Nov. 21, 1909.

Dr. Wong Him, 1263 O'Farrell St., San Francisco.

Dear Doctor:—After suffering for a number of years from a disease of the stomach and bowels, I came to you for treatment. Your diagnosis was correct, and your treatment was successful. I am now entirely well and free from pain.

Faithfully yours,

MRS. E. THOMAS, Antioch, Cal.

1022 Kearny St., San Francisco.

Dr. Wong Him, 1263 O'Farrell St., San Francisco.

Dear Sir:—For several months I suffered with terrible agonies of pain in my stomach, not being able to eat or retain any food. I got no relief until I was recommended to you. After the first treatment I got relief, and now, after several months' treatment, I am entirely well. I feel entirely cured of my trouble. During my treatment with you I have gained 30 pounds. I tender you my most sincere thanks, and remain gratefully yours.

MRS. E. THOMAS, Antioch, Cal.

Dr. Wong Him, 1263 O'Farrell St., San Francisco.

Dear Sir:—For several years, while suffering from a disease of the stomach and bowels, I tried in vain to find relief from physicians of various schools of medicine, when, as a last resource, I was recommended to you. I applied to you, and you cured me with your Chinese Herbs. I tender you my most sincere thanks, and remain gratefully yours.

MRS. E. THOMAS, Antioch, Cal.

Dear Sir:—For several years, while suffering from a disease of the stomach and bowels, I tried in vain to find relief from physicians of various schools of medicine, when, as a last resource, I was recommended to you. I applied to you, and you cured me with your Chinese Herbs. I tender you my most sincere thanks, and remain gratefully yours.

Increased Activity Is Shown In All of the State's Oil Fields

SANTA MARIA FIELD AND ITS NEW BOOM

Pennsylvania Expects Oil in the Extensive Cat Canyon Holdings.

GEOLOGIST ARNOLD AND REPORT TO U. S. SURVEY

Gossip of the Operations of Old Companies and Some New Ones.

SANTA MARIA, Cal., April 20.—

"There's a better looking hole in the entire field than that of No. 1 in the Cat Canyon holding," said President T. R. Finley of the new Pennsylvania Oil Company, in an interview this morning.

"Our prospects are good. This well is now at a depth of 2100 feet and we will finish inside of the 3200-foot mark."

"We are still on the eighth-inch casing, which is carrying perfectly free and the high saturation of sands with an extremely strong gas pressure brings a prospect all to be desired."

"I wish only that I had about \$300,000 more to invest in the present time," said Mr. Finley significantly. "I certainly could not put it to better use."

Mr. Finley did not state to what use he would put that amount of hard coin, but judging from the intense interest he displays whenever new Pennsylvania stock is mentioned one might hazard a guess without missing the mark to any great extent.

TO DEEPEN WELLS.

New Pennsylvania well No. 3 in the oil field is to be deepened, carrying the hole down to the deeper sands. Work will be begun on this well on Monday.

No. 2 is in the same vein as well No. 2, which is now producing steadily and heavily a high grade of oil, the latter having been finished in the lower part of the well of the company in the old field is holding up in great shape another blow to the oil-reformer.

The Colorado well is down 2500 feet and the casing is carrying perfectly free. This speaks volumes of the saturation of the head driller and the directoral efficiency above him.

At last the oil property, which has stood out like a wart on the ideal tract for so long has been sold. The purchase was made by Los Angeles and San Francisco capitalists, prominent among whom are Messrs. Kelsey, Walsh and Glass. Work of development will begin shortly. The price paid for this tract is said to be \$30,000.

INITIAL WILD CATTING.

Summit No. 1 on the Buick tract in the Frazier Point district, spudded in on Wednesday. This venture is the initial wild catting of an entirely new territory, and developments will be watched with keen interest among oil men locally, as well as generally for the bringing in of a successful well here will prove up a district.

Regarding the district, Mr. Finley said: "The reason about Frazier's Point and the south of it, and south of the district, is doubtless underlain by the oil bearing beds."

"The occurrence of asphaltum at Frazier Point is analogous to that at the east end of the Graceland Ridge, where very productive territory has been developed. To the southwest there is evidence of the presence of a low anticline, which should yield good returns if penetrated deep enough."

ASPHALTUM LEAD.

"The asphaltum occurring one mile north of Gary is important in indicating the probable presence of petroleum in the upper end of the Santa Maria valley."

"Without doubt there is petroleum in vast quantities somewhere directly east of the city of Santa Maria. The wild catting done recently in the vicinity of the Leona Creek well disappointing in the results, did not prove the absence of oil in that vicinity."

These wells were failures, distinctly because of obstructions encountered in drilling. "Looked for formations ruined the Colonel, while sulphur matter caused the General to be abandoned."

Like any pioneer venture, acquaintance must be had with the peculiarities of a new field before work may go ahead with any surety.

Palmer No. 4 is making a strong bid for the honor of being the record well of the area. The hole is at a depth of 1700 feet and the casing is free and going fine.

Los Angeles Petroleum No. 1, which recently lost its hole, is reported to have been drilled to a depth of 2000 feet, and is now on the pump.

Marion's Power has been having a bit of back luck of late, but has not lost confidence in spite of adverse conditions. It is extremely difficult to gauge the true worth of this well until the difficulties with sand shall have been more than surmounted by overcome.

PLENTY NEW RIGS.

A rig is up for field No. 2 in the Cat Canyon district, and the company will spud in shortly.

Palmer No. 2 is on the pump. Palmer's is still keeping up its gait, and shows no indication of abatement.

Merchants Oil Company is ready to spud in.

West No. 1 well is down 3150 feet, and is at the second sand. The drill is at present in the strata of the oil-bearing grit, which is heavily impregnated with oil and gas. This company looks to have a fine well in prospect.

Brookshire No. 9 has been bridged over and work is going forward toward getting better control of the heavy gas pressure. Undoubtedly this well is going to be a hummer, and will take its place in the annals of the field along with its neighbors, Brookshire No. 5 and Hartnell No. 1. Stock speculation on this property continues to be active, with frequent fluctuations in the price quoted.

Prospector's Slayer Sentenced to Death

GLOBE, Ariz., April 20.—Thomas Waddell, 23 years old, was yesterday sentenced to die for the murder of J. P. Lindner, an old prospector. He will be hanged June 29th. The trial occurred at Solomonville, near here.

CALIFORNIA OIL FIELD SURPRISES THIS STAFF EXPERT OF ENGLAND

R. J. Fletcher, who is a well known English oil expert who has visited in the course of his experience all of the large oil fields of the world, is greatly impressed with the wonders of the oil fields of this State and says that in many ways they are the wonder of the world. He has lately been through the Coalinga field.

"One of the things that surprises me," he said the other day, "is the high wages that are paid in the fields in comparison to what is paid in other fields. Another surprising thing is the way in which the companies are capitalized. To think of companies being organized for \$200,000 where the property only covers twenty acres would surprise people in any country. And then there is the justification in the fact that they pay dividends."

Mr. Fletcher represents a lot of English capital.

INCREASED ACTIVITY NOW SHOWN IN COALINGA

Several New Companies Formed; Work Started on Some of the Old Prospects

COALINGA, April 20.—There is a delay on the completion of the W. N. & M. on account of the splitting of the B. & G.

The Boycester on 14, 21-25, is already down 2100 feet, but making slow progress because of the soft formation. The directors at a meeting May 2 will take up some new questions connected with the financing of the company.

The Cosmo Oil Company, which shut down several weeks ago, is drilling again and down to 200 feet in ten-inch casing.

The drillers' Oil Company has granted a right of way to the Standard Oil Company a right of way across the south half of the north half of the southeast quarter of section 22, 10-25, for pipe lines so constructed as to not interfere with the drilling.

HANFORD PEOPLE ORGANIZE COMPANY

Attracted by the Success of Mohawk Well They Secure 80 Acres Nearby.

HANFORD, April 20.—The big show-up of the Mohawk well after its long struggle has led a number of capitalists in this city to form a company which is to be known as the Morgan Oil Company.

The president, Joseph Welsbaum, is now a San Francisco business man, but was formerly a resident of Hanford, and was heavily interested in the Coalinga field during the pioneer days. The other organizers are C. F. Fleming, Samuel Reynolds, H. C. Kimball and W. A. Reynolds.

Mr. Reynolds is the vice-president and Mr. Fleming the secretary. The capitalization of the new company is 1,000,000 shares with a par value of \$1 per share.

The company has secured 80 acres in section 24, 20-13, being the southwest quarter of the northeast quarter, and the southeast quarter of the southwest quarter. The property lies directly south of the Mohawk, and a little west of the Southeastern Limited.

ORIGINAL LOCATORS.

Mr. Welsbaum and brother, Daniel Finn and others of Hanford, were first to locate on section 25 of the Standard, as valuable a section as there now is in the field. They were also victims of the "break" theory, and sold the land several years ago to Eugene de Saba and his associates when the price of oil was nil and the territory practically undeveloped.

The price received for it was a little over \$100 per acre, and today the land is valued at more than twenty-five times that figure.

Mr. Welsbaum, who owns the tract, says that the property is in the hands of the Standard Oil Company, and that the company is preparing to begin operations immediately on the lately acquired property, and believe that the well will prove as productive as the Mohawk.

FOR DYSPEPSIA

You Risk Nothing by Trying This Remedy.

We want every one troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth, Subnitrate and Pepsin prepared by a process which develops their greatest power to overcome digestive disturbance.

It is a pleasant and effective remedy, very pleasant to take. They soothe the irritable, weak stomach, strengthen and invigorate the digestive organs, relieve nausea and indigestion, promote nutrition and bring about a feeling of comfort.

If you have Rexall Dyspepsia Tablets a reasonable trial we will return your money if you are not satisfied with the result. Three sizes, 25 cents, 50 cents and \$1.00. Remember you can obtain them at our store, The Rexall Store, The Owl Drug Co., Inc., Tenth and Washington, Thirtieth and Broadway, Sixteenth and San Pablo.

WARRING FACTIONS IN MIDWAY ARE NOW AT PEACE

Barnadon Oil Company Will Control 3360 Acres of Territory.

STANDARD DOUBLES ITS PIPES OUT OF MIDWAY

The Coalinga Independent Oil Producers Unite With Bakersfield.

E. L. Doheny of Los Angeles confirmed for the first time the report that an amicable agreement had been reached between the warring factions which had claimed conflicting interest in the Buena Vista Front, east of Midway field, and that development operations on the large tract involved would now be pushed under the direction of the Barnadon Oil Company, a \$1,000,000 corporation just formed by the various interests involved.

Mr. Doheny said that the arrangement just perfected would have an important bearing upon the oil industry in California. The new company will control 3360 acres, all of which, it is believed will prove to be rich in petroleum. The Barnadon Company will be operated as a closed corporation, and none of the stock will be offered to the public. The directors are Captain John Barnadon, E. J. de Saba Jr., T. C. Talbot and Mark Requa of San Francisco, and E. L. Doheny, C. A. Canfield, T. A. O'Connell and J. M. Leonard of Los Angeles. The headquarters of the company will be in San Francisco.

DOUBLES ITS LINES.

The Standard Oil Company has been compelled to double its eight-inch line out of the Midway field in order to care for the oil for which it has contracted from the United Oil Company, three wells, the Eagle Creek, the Santa Fe, and the "two-sixth," the Ethel D., three wells; the Honolulu, California Midway, the May's and the Hawaiian. The combined output of these wells is very large, and the Standard's own production is sufficient to exhaust its capacity to care for the transportation of 21,000 barrels daily, without the additional oil which is pouring in on the company from its contracts with the above-named companies.

The Manchuria Oil Company, leasing from the Amber Company on section 26-31-22, in North Midway district, about a mile from the remarkable new Santa Fe well on section 25, has secured enough backing to float it and will drill immediately. San Francisco capital is backing the company, and it is said the location and surroundings give every indication of success.

ANOTHER BIG LEASE.

Paul E. Ferguson of this city has secured a lease of fifty acres in the Bakersfield section 8-11-23, adjoining La Bana on the north and the K. T. & O. on the east, from M. P. Waite of Maricopa.

It is reported that the Record and the Standard are in the annual meeting at Bakersfield last week voted to consolidate with the Bakersfield agency. The latter met the following day and voted to enlarge the dividends. A special meeting will be held to vote the Coalinga members in.

NORTH MIDWAY HAVING NEW BOOM

New Rigs Dot Landscape from Big Gusher North to Temblor.

BAKERSFIELD, April 20.—Every one who returns these days from the North Midway field are greatly entertained over the straggling of the wells, mostly the new ones, and the increase of the prospects especially in the Lake View gusher section north to Temblor, everywhere new rigs springing up over night.

The Standard Oil Company has begun pumping on the new well near Bear Creek, brought in late last week, and the flow is declared to be greater than at first predicted.

The Santa Fe well in 22-31-22 is making 150 barrels a day from a comparatively shallow territory. It is said to be only 1100 feet deep.

AT MIDWAY CHIEF.

The Midway Chief is down 1200 feet and gas has been coming in for the last fifty feet with a slight "flicker" of oil. These are taken as splendid indications by the drillers, who are prepared to handle a gusher, on the theory that the loose grained sand encountered, which is exactly like that met in the drilling of the California Midway, indicates unusually big wells.

The company is prepared to go 2500 feet depth will not be required. The company has spent \$16,000 on the new well.

Pole Riding Contest Proves a Success

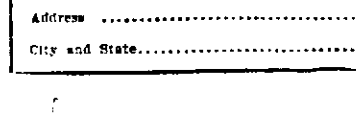

The pole-riding contest at the Y. M. C. A. basketball was one of the most exciting events of the evening. The wrestling by Chester A. McIntyre and three amateur champion wrestlers was striking. Music by the orchestra, vocal solos and readings, talks and games, closing with a grand auction of basket lunches which the ladies had provided for their partners was a climax to a most delightful evening.

This is the first great social event the Y. M. C. A. has had in the big hall upstairs and was such a success that the social committee is arranging a series.

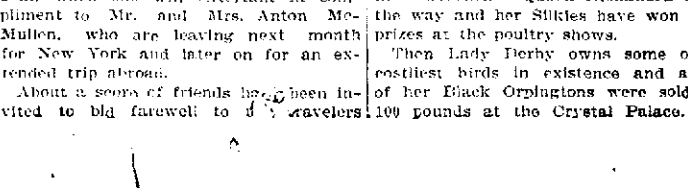

ALL THE CREDIT YOU WANT You Can Make Your Own Terms

IN SOCIETY

Miss Harriet Jessup has been put in charge of the model flat at East Sixty-fifth street which has been furnished and supported by a committee of young women of St. Thomas's church. Miss Catherine Atterbury is the president of the committee and Miss Emma Roneyen is the secretary. Miss Jessup is a recent graduate of Teachers College and the object of the flat is to teach the young girl how to care for and conduct a home. Besides lessons in cooking, laundry work and house-cleaning the pupils will receive instruction in the proper furnishing of small flats and how to utilize their small spaces to the very best advantage and at the least expense.

NEW YORK.—Mrs. Theora Carter, president of the Society of Good Cheer (Inc.), has just returned to New York City, the latest participant in the "Smile Train" tour. She has been away from her organizing trip West and South for the last part of a year, and is returning to her home in the City of the Big Shoulders, where she is a member of the City of the Big Shoulders Club, founded here only a year ago and started with the idea of cheering the convalescent sick in the large hospitals, is to make its mission of good cheer international. Arrangements are now being made for a special train to start from New York for the City of Mexico, all laden with the sunny smiles of a hundred or so of the most cheerful people on the continent.

When they reach their destination they will in effect, tell President Diaz to "cheer up! The worst is yet to come!" But all along their route, which will include Chicago, St. Louis and most of the prominent cities of the Middle West, they will be telling the "sad, sad, dismal man, woman and child."

"The train will be decorated throughout," said Miss Carter, "with the colors of the society, red, white and blue—for every cheerful person is a firm patriot in this splendid country of ours." They are having special signs and posters for the route. In all the large cities they shall hold public meetings and preach the gospel of Cheerfulness by word and deed. In each town we shall try to visit some of the hospitals, or take some poor little children out to ride, or do something substantial to show that our faith is more than a philosophy of words. In the smallest towns we shall at least have speeches from the rear platform of the train. It will be like a crusade of old—only we shall carry a smile instead of a sword."

"More than a hundred people, here and in Boston, Chicago, Seattle—all over the country—have already promised to take this trip, and I expect many more to join. Our little society of a year ago is becoming a great one, and we are abroad—probably to England first. Any one may join us—all he has to do is to 'cheer up'—first himself, then somebody else."

The date for the departure of the "Train of Smiles" is not yet fixed, but will be announced shortly.

PHILADELPHIA.—In memory of the best mother that ever lived, your own, the second Sunday in May has been set aside to do her special honor.

"Mothers' Day," it is now called, and it will give public but modest tribute by wearing a white carnation.

Mrs Anna Jarvis, 2361 North Twelfth street, the originator of Mothers' Day,

is a modest, middle-aged woman, whose own mother died five years ago, on May 9. Her own great grief brought about the idea of Mother's Day. Her death must always bring to some one, which Miss Jarvis was not slow to act upon. She began her campaign for a national celebration of the day by writing anonymously to editors, ministers, clergymen and heads of families, sending them their help. The idea appealed to the deepest and best sentiments of everyone and gained such unanimous support that Mothers' Day last year was celebrated in nearly every state in the union.

The day and its lesson furnished ministers with texts, and it was observed in hospitals, prisons, institutions and almshouses.

In the last four years the plan has taken a firm hold on the public consciousness, but it was not until this year

that some one remembered the need for girls as well as boys. Elizabeth Cady Stanton, who has given to it its time, thought and money to the point of exhaustion.

For this reason a meeting of representative men was held after a lunch in Miss Jarvis' home in the Dutchess hotel, at Central Y. B. Church, at 421 Broadway, and plans were discussed for making the day a national festival. Many plans were suggested and laid aside, for Miss Jarvis has found a tendency in some parts of the country to commercialize the day, to make it an anniversary of sales and cents, rather than tender memories and affection.

Said she yesterday:

"I want Mothers' Day to exist for all princes or paupers, Christians or Jews; young or old—the figure of a mother must stand to all for what is most worthy and true."

NEW YORK.—In the belief of a New York business man the problem in cities of how to meet the increased cost of living hits hardest the people who are fairly well educated, including artists.

Queen Alexandra Plants a Garden

LONDON.—Queen Alexandra is making an experiment at Sandringham. She is having a garden planted with the flowers of Northern Europe. At the Villa Hydovre, on the outskirts of Copenhagen, she has one of the finest collections of the flora of Scandinavia that have ever been got together, and she has long been anxious to introduce many of these hardy plants into England.

Before her recent visit to her Danish home she consulted Lord Redesdale, who was responsible for the original laying out of the Sandringham gardens, and he agreed with her that the idea was feasible. About 500 plants and shrubs selected by the queen herself have followed her back to England and are now being planted in a corner of the Sandringham grounds. The place for the garden has been selected so that she can see it from her windows and watch the progress of her northern blooms.

clerks and the average run of professional men, with young lawyers in the lead. Similarly an apient suffragist declared that there has been a falling off of late in the number of suffragettes of women of good education and that it is directly attributable to the increased cost of living and not to a drop in sentiment or a lessening regard for the marriage tie.

This woman bristled at the mere suggestion that a large number of single self-supporting women enrolled under the equal suffrage banner indicated a detraction for matrimony.

"The presence of so many unmarried women at equal suffrage meetings," she said, "indicates merely among other things that the present economic conditions have not been favorable to matrimony among thinking, educated women fairly well equipped to earn their own living."

Fortunately or unfortunately, according to your point of view, economic conditions interfere very little if at all with the matrimonial plans of the well educated, the non-thinking class. Nowadays a woman with a good working knowledge of arithmetic and mathematics enough to use it as it is apt to do some figuring before undertaking the stretch of small income to cover rent, food and clothes bills for two persons, and the

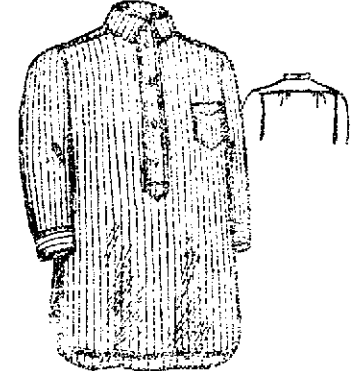

Lady Chesterfield is yet another fa-
mily member and so are Lady Aylesford, La-
dies Kathleen Pilkington, Lady Burton a-
nd Lady Tichborne. And in the old da-
ys Evelyn Lady Allington had the fine-
st store of bantams in the world at C-
hurch in Dorset.

CHICAGO.—Before Mrs. Potter Palmer left for Europe the other day it was arranged that two of the handsomest stone houses of the Palmer estate, those on the corner of Lake Shore drive and Cedar street, Chicago, should be reserved for the use of the prince, who is among the best dressed men in Chicago, except Prince Nicholas Engellertoff. Both are always superlatively brushed, polished, fitted and tailored, with a keen eye for innovations in neckwear.

After being divorced for three weeks in the record of O. Bay, 25, of Joplin, Mo., and Miss Nettie Ishlop, 20, of Carthage, Mo., who after considerable looking into law books were granted a license by Clerk Paisley Offutt. The license was a first refusal on account of the laws of this Missouri and Oklahoma, not allowing marriage before six months have elapsed for divorce couples. After search, though, the consensus of opinion was that this did not apply to the parties themselves if they wished to marry each other, but only when they wished to marry some one else.

According to the statements of the couple, they were divorced in Carthage, Mo., upon the grounds of incompatibility, but the trouble was really caused by their parents, and after getting along and talking the matter over they decided they would rather be together again.

THE TRIBUNE Will Be Mailed
Within Twenty-Four Hours
From the Time the Orders Are
Received in This Office.

2006
MEN'S AND BOYS' OUTING OR NEG-
ATIVE SHORT.

Tribune Pattern No. 2006

Striped in dress was made to make this neckline. After joining the neckline, now lay flat across the shoulders, so each the band is joined with slight gathers. Width of the style are easily made at home. The front is cut on a fold of the goods, but closed thoroughly the center for an opening and then finished with an overlap and underlap. The neck has the regulation band finished for removable thin collars, or, if a permanent collar is desired, the neck band is then used for the standing portion of the collar which the pattern provides. The pattern is in 9 sizes—32 to 47 neck or 28 to 44 bust. Size 38 necks needs 44 yards of material, 25 inches wide, or 33 yards 36 inches wide.

Price of pattern, 25 cents.

RECORD-BREAKING CROWD SEES BEAVERS BEAT THE OAKS

Long Shots Bring Dismay to Hearts of Race-Form Players

PORTLAND DEFEATS OAKS IN FAST CONTEST

Greatest Throwing in History of League Turns Out to See Big Game.

STANDING OF THE CLUBS.

	Won.	Lost.	Pct.
Portland	12	6	.667
San Francisco	12	7	.632
Vernon	12	8	.600
Los Angeles	10	10	.500
Oakland	7	12	.368
Sacramento	4	11	.262

ALTHOUGH the Oaks took the short end of the 2 to 0 score in the opening game with the Beavers in Portland yesterday, the northern critics are in a unit in declaring that the Beavers' band of losers put up a very creditable exhibition, indeed, and the sting of the defeat is mitigated not a little by the praise which the local players won.

It was a big day in Beaver town. Twelve thousand people, the greatest crowd that ever turned out to witness a Coast League game, were on hand to welcome the McCredie aggregation on their initial appearance on the home grounds after the opening of the league season. And even the weather, proverbial for its inclemency, arrived itself in gala attire about a mile long through the city prior to the game, and not less than 100,000 people took places in the grandstand. Altogether, it seemed too bad to beat the Beavers after their record, but the Oaks, such a welcome to them, and Wolkerton and his cohorts gracefully decided to allow them to retain their position as the game itself was a pitchers' battle, with Garrett on the slab for the Portlanders and Harkins for the Oaks. The home team down to a quintet of starters, there were sensations and to spare in the way of fielding, and the Oaks came in for frequent outbursts of applause.

Governor Bennett of Oregon pitched the first ball of the game, and Mayor Simon of Portland essayed to catch it.

The score:

Seals Win Close Game by Rally in The Final Inning

The Seals celebrated their return to San Francisco after their successful invasion of the Mexican stronghold by defeating Sacramento at Recreation Park yesterday. The game was won in the last half of the ninth inning, when the Seals, after trying vainly for eight innings to bunch hits enough on pitcher Brown to squeeze a run across the plate, suddenly hit upon him for three in succession, scored the only run of the game and the game was won. The Seals' Vito and Bodie were the players who made the hits which turned the trick and they slammed them out in one, two, three order after Melchior had come out in the ninth.

The Seals' Vito and Bodie were the players who made the hits which turned the trick and they slammed them out in one, two, three order after Melchior had come out in the ninth.

HILDRETH WILL SHIP TO SOUTH AMERICA IF RACING BILLS PASS

NEW YORK, April 20.—The absence of Sam Hildreth's horses from the season's early races, was explained in a statement from the owner today.

"I am waiting to see the fate of the new anti-racing bills at Albany," he said. "If racing is injured in the slightest degree here, I shall ship my horses to Buenos Ayres. It is not a matter of sentiment with me, but one of business. I must get a living out of them. If things go wrong here, Argentina looks the most promising spot to me."

Hildreth has in his barns the best collection of stake and handicap horses in America, with the exception of those belonging to J. R. Keene. Even under present racing conditions, a conservative valuation of his thoroughbreds would exceed \$100,000.

JOHN G. KILGUS, the baseball catcher, will walk across the stage at a musical in Chicago twice a day for one week, beginning Monday next, to earn the \$500 fine imposed on him by the National Baseball Commission. In addition to the \$500 fine, Kilgus will be fined \$100 for each day he fails to appear at the Chicago National Baseball Club on Sunday morning and will play out the season for the \$400 salary offered him.

The Maryland Jockey Club will open its spring meeting tomorrow with a heavy track and probably a signal success, was said by the club's officials. All that was needed was a few more horses in the track.

Long has received a note from Secretary Harkins of the National League confirming the decision which gave credit to Frank Miller for the game in Oakland two weeks ago, in which Miller was taken out just before the Seals won the game.

The second annual San Francisco women's tennis tournament for the Spaulding trophy was completed yesterday to the final round, on the Golden Gate country club.

Frank Gotch, the champion wrestler, wants Zibrowski, the wrestler, to defeat J. J. Miller before he will return to the challenge of the foreigner.

Jack O'Brien, the Philadelphia light heavyweight, has been matched to meet Al Kaufman before the Duquesne Athletic Club of Pittsburgh April 22.

Babe Blaine, the Santa Clara tower who recently joined the Seals, warmed up with the Seals before the game. He probably will be given a chance some day this week. He is a great all-around athlete.

The first women's tournament for the cup given by Miss Florence West will be played Friday on the links of the San Francisco Golf and Country Club. It has been coming strictly quiet among the women at some time and this event will be held with the idea of keeping up their interest in the game.

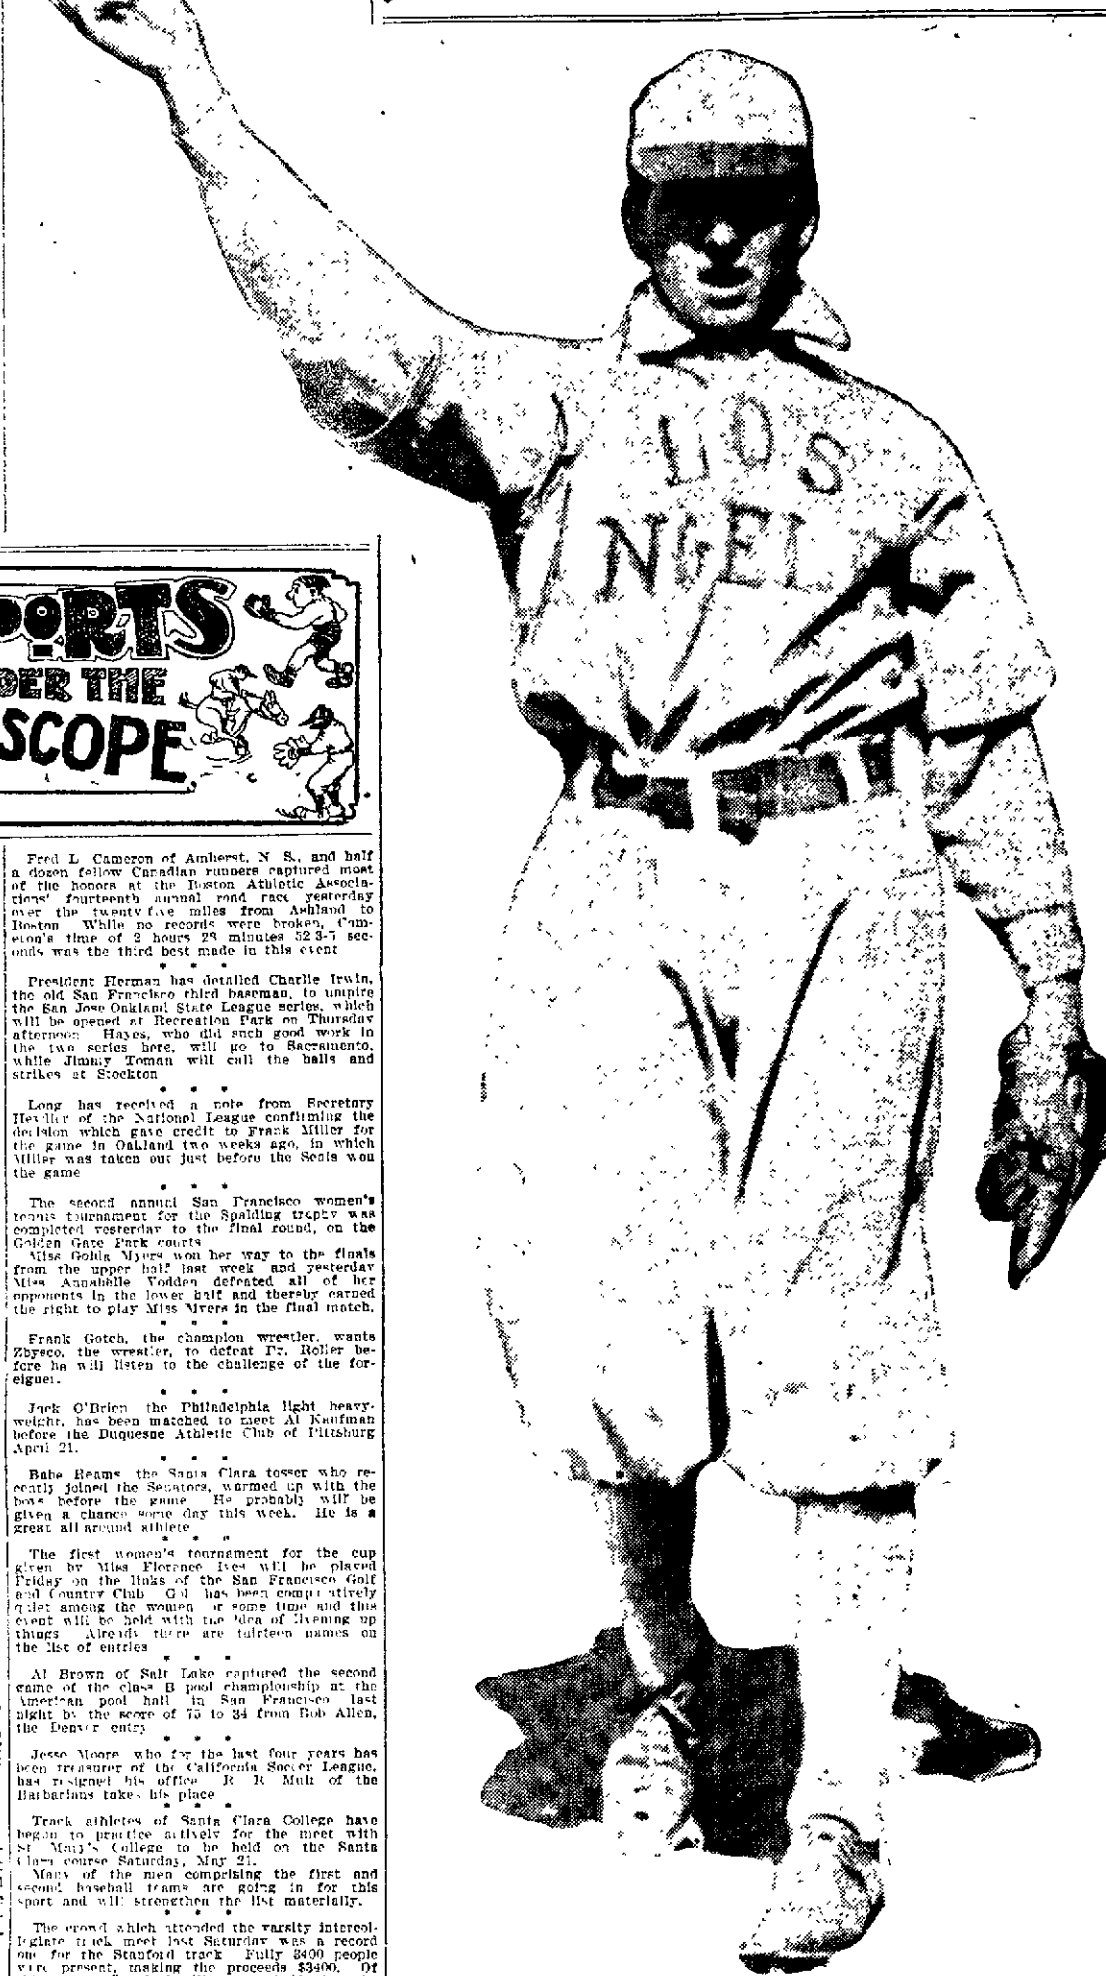

Al Brown of Salt Lake captured the second game of the class B pool championship at the American pool hall in San Francisco last night by the score of 10 to 8 from Bob Allen, the Denver entry.

Jesse Moore, who for the last four years has been treasurer of the California Soccer League, has resigned his office. J. R. Muir of the Harbinger took his place.

Track athletes of Santa Clara College have begun to practice actively for the meet with St. Mary's College to be held on the Santa Clara course Saturday, May 21.

The crowd which attended the recently interrupted track meet last Saturday was a record one for the Stanford track. Fully 8,000 people were present, making the proceeds \$2,000. Of this amount Stanford will get one-half when the expenses have been deducted.

Briswalter, the young Angel twirler, whose pitching found favor in the batting eyes of the Oaks last week.

ATHLETES OF ST. MARY'S DO WELL

The track and field athletes of St. Mary's College held a try-out yesterday afternoon in their stadium. There were a number of creditable performances. In the 100-yard dash Starrett and De Benedetti tied for first place in a close and exciting run. The mile run was won by Miller, a diminutive junior. Stolz, a freshman, captured the 220-yard dash and the 140 was won handily by Martin, who is speedily improving over his form of last season. McCarthy and Russell shared first and second place honors, respectively, in the 880. The high and low hurdles were won by Hughes, a senior. Dickson, last year's captain, annexed both the shot put and the pole vault events. Leonard and Starrett were close competitors in the broad jump, the former finally winning. Armstrong McCarthy and Stolz were winners in the high jump. In the hammer throw event Bonetti, Walker and Hughes took first, second and third places, respectively.

Sam Strin, a once noted lawyer, made his first appearance at the track yesterday. The noted jurist has turned farmer and has an extensive fruit ranch near Medford, Ore.

SIX WARM FAVORITES IN SUCCESSION BOWLED OVER

Long Shots Held Their Own in Six Events--Clean-Up Made on Several Despised Outsiders

By LEE DEMIER

The big crowd that assembled at the Oakland track yesterday was not in a friendly mood after the last race was run, which resulted in overthrowing of six straight favorites. The talent, the wise ones and the students of the midnight oil all had a downcast look after the last favorite went a-glimmering. The layers had a smile coming at their faces, but then the ones that took the coin on the winners got stung, especially when Whidden and Kid North made good. The bargain hunters were in line on the win of McGee and Swanger. Colonel Elkins, the bookie capitalist, wagered \$50 against a \$1000 on Swanger-lator.

The most important race on the program was the running of the fourth race, which attracted the best three-year-olds in training at the Emeryville enclosure. Chester Krum was backed by the public from 9 to 5 and a very little of the latter price could be had at post time. Banorella was played down from 15 to 10. The odds on the field were all to a good break. Good Ship was the first to break, but after running a little distance she passed it up and adjourned to the rear. Kid North forged to the front at the half-mile pole and Selden kept the pole in front of the rest of the way, winning easily at the end. Chester Krum had a world of early speed, dropped back at the half-mile pole and then came again, but Kid North had him beaten as he was sailing out in front, and his effort to catch up with the winner told as the end, finishing second a length in front of Lady Elizabeth. The latter ran a good game race and held Miles more than safe for the short end of the purse. The latter is not at his best at present.

The firm of Hoag & Soule got their losses of Saturday back and more besides, when Beatrice Soule won the youngsters' race in a sensational stretch drive from Othello. The winner had all the good luck at the start and was out-run by Othello, but outgamed her when

JUAREZ MAGNATE IS VISITOR AT AQUEDUCT

President of Mexican Jockey Club Gathering Stable to Race in East.

NEW YORK, April 20.—Senior Don Alberto Terrazas, the president of the Juarez Jockey Club, is an interested spectator this week at the Aqueduct racetrack. He is preparing to get together a small stable to race on Eastern tracks. Regarding the race, the President of Terrazas is silent, but he speaks confidently of the situation in Mexico, expressing his opinion that racing will flourish in his country before many years.

"We have nineteen years more to race at our track," said the distinguished visitor, "and there is no question that the sport will improve each season. The first money was made in the effort to improve the quality of the horses, but the attendance was more than satisfactory. The class of horses that raced was of the highest quality, better than anything else, everybody was sorry to leave Juarez."

A meeting of the stockholders in the Mexican course will be held here this week and plans will be formulated for the coming season. The purses will be materially increased, but the effort to make the value of the events sufficiently large to induce many of the stables that usually winter in New York to stop in Mexico.

Frank Kramer of East Orange, N. J., the national sprint champion, won the five-mile open race at the bicycle races in New York yesterday. He finished first in the half-mile professional handicap.

Paul Virnost of Salt Lake City won both the quarter-mile open amateur race and the two-mile amateur handicap. The ten-mile motor paced race was won by George Wiley of Syracuse. Percy Lawrence of San Francisco captured the half-mile professional handicap, and Eddie East of New York won the two-mile consolation.

LANGFORD, R. H. Rafter mhr cases NEW YORK, April 20.—The Aqueduct racetrack have been engaged at Merchantsville, N. J., for San Langford, where he will prepare for his coming fight with Stanley Ketchel at Philadelphia. April 21. Among the sparring partners retained are Al Kaubiak and George Cole.

Vernon Takes Another Game From Los Angeles

LOS ANGELES, April 20.—Vernon beat Los Angeles yesterday in a free-fighting game, in which the prizefighter featured the betting of both teams, a great running catch by Martine in the ninth that prevented the score being tied, and the fact of two balks in one game, which is exceedingly rare. Tozer heaved for six innings for the Angels, and then retired in favor of Gill. Willett was in the box for Vernon. Score by innings.

Berkeley Elks Plan Picnic and Barbecue

BERKELEY, April 20. — A big barbecue, under the auspices of Berkeley

Berkeley Elks Plan Picnic and Barbecue

BERKELEY, April 20.—A big barbecue, under the auspices of Berkeley Lodge, No. 1002, of the Elks, has been planned by the entertainment committee of the order to be held next Sunday. The affair will be given at Grand Canyon, also known as East Richmond Park, and will be for members of the local lodge and their visiting Elks only. By special arrangement with the Elks and the Southern Electric Car Company, the Elks will be carried to the park and back on special cars, leaving University and Shattuck avenues Sunday morning at 10:30, and leaving the park on the return trip at 5 o'clock in the evening.

The arrangement committee has announced that a menu of barbecued beef, beans, bread and "trimmings" will be provided. The committee consists of Phil Carey, M. H. Shuey, H. Slater, G. D. Prentice and A. D. Nelson. A program of stunts and vaudeville stunts has been prepared.

Contentment is a state of mind.

IMPERIALES

create it. Their full flavored, satisfying blend is the secret. They are a quality smoke.

Volivia Wins Back His Political Power

CHICAGO, April 20.—At Zion City, Wilbur Glenn Volivia, successor to the late John Alexander Dowle, yesterday won back most of the power he lost at the election a year ago. The election was the second test of strength between the theocratic party, represented by Volivia, and the independents headed by Mayor Ritchey. At a close election last year the independents won every city office. Yesterday Volivia elected three aldermen and a police magistrate, all the officers voted on.

Gary's "Dry" Spell Seems to Be Over

CHICAGO, April 20.—The long "dry" spell in Gary, Ill., will be broken next Monday owing to the result of the recent election.

Already licenses for 160 saloons have been issued and before Monday it is predicted the number of licenses will have reached 250.

ELECTROPODES

No Cure—No Pay

We will not give you a lecture on the wonderful curative powers of electricity, but if you have Rheumatism, nervous headaches or other nervous ailments or anything wrong with stomach, liver or kidneys, go at once to your druggist and get a pair of ELECTROPODES.

We don't simply guarantee they will cure you, we still do better than that. To insure you against any uncertainty, we have arranged with your druggist to sign a legal, binding contract with you, agreeing to return the money if they fail to cure. You know your druggist, you know his name on a contract makes you safe, then WHY don't you try a pair of ELECTROPODES. If they cure, they cost one dollar, if they fail to cure, not one cent.

If your druggist cannot supply you, send \$1.00 direct to the WESTERN ELECTROPODE COMPANY 257 Los Angeles Street, Los Angeles, California, and they will see that you are supplied.

Mention your Druggist's name.

HORSBURGH A BENEDICT AT LOS GATOS WEDDING

Southern Pacific General Passenger Agent Surprises Friends—Mrs. Frances Baldwin Sanborn His Bride

James Horsburgh Jr., the general passenger agent of the Southern Pacific Company, gave a genuine surprise to his associates and to the majority of his numerous friends and acquaintances when he abandoned bachelorhood and became a benedict through his marriage at Los Gatos, yesterday, to Mrs. Frances Baldwin Sanborn.

The charming bride is the daughter of

Mrs. Alexander Baldwin, and the scene of the quiet wedding was the latter's beautiful home, "Many Oaks," which is one of the most attractive places in the picturesque foothill town of Los Gatos, located at the south of Los Gatos canyon and the base of the romantic Santa Cruz mountains.

WEDDING SECRET.

Following the policy which had been adopted by the bride and groom in concealing their engagement and the date of their marriage from the majority of the numerous friends in and out of the official circles, the wedding at high noon yesterday was a quiet ceremony, at which only their immediate relatives were present. Rev. H. Winter, pastor of the Presbyterian Church of Los Gatos, of which the bride is a member, officiated. After the wedding, the happy couple left in the private car "Rains," to spend the honeymoon in parts unconnected, although it is surmised that it embraces the wonderfully romantic Clearlake lake region and a two-months' tour in the Eastern states.

FAMILY PROMINENT.

Mrs. Horsburgh is the widow of the late S. S. Sanborn. During the several years of her widowhood, she has lived with her mother at "Many Oaks," which has been noted as much for its hospitality as for its charming pictureque surroundings. Her family has been long prominent in San Francisco's best society.

Mr. Horsburgh has been in the service of the Southern Pacific for at least thirty years. He began his railroad career as a passenger clerk under the then general passenger agent, T. H. Goodman, now on the retired list. He was subsequently promoted to the position of assistant general passenger agent and performed the duties of the office with such marked ability that he won his way into the good will and esteem of his chief and J. C. Stubbs and was early named by them as Mr. Goodman's successor when the time for his retirement by virtue of the age limit of general passenger agent should arrive. That event occurred about seven years ago. E. O. McCormick had been promoted in the meantime to the position of assistant to J. C. Stubbs, the general traffic manager of the Harriman system, with headquarters at Chicago, and Charles S. Ewe was brought from St. Paul and installed at San Francisco as the Southern Pacific passenger traffic manager.

RECEIVES PROMOTION.

Mr. Horsburgh was promptly promoted to the position vacated by Mr. Goodman's retirement as general passenger agent, which post he had filled with the same tact and ability that has marked his whole career in the service of the corporation.

Before Mr. and Mrs. Horsburgh started on their honeymoon congratulatory telegrams poured into "Many Oaks" from J. C. Stubbs, McCormick and other prominent railroad associates of the groom, who had been let into the secret of his intended marriage.

Talks on Teeth

BY Rex Dental Co. (INCORPORATED)

"Eating His Meals With Pleasure."

There are two times in a man's life when he can say he enjoys eating his meals.

One is before he loses any teeth and all of them are in good condition—and the next time is when, after years of discomfort, due to lack of teeth, the wearing of an old-fashioned "bridge," or a partial plate, he is fitted out by us with a complete set of the Rex Dental Co.'s Alveolar Teeth, and told to go and eat his meals with pleasure.

ALVEOLARS PART OF HIM.

Frutivale, Cal. Gentlemen: In regard to the Alveolar teeth, I will state that I have had the upper set of that make for two years. They have and are giving excellent satisfaction. I do not feel that there is anything foreign in my mouth—the Alveolars are part of me. I once had a lower bridge with four molars on it, and it was always poking it with my tongue. It was wobbling up and down all the time; food got under it; it had to be taken out to eat, and it irritated gums. Not so with the Alveolars—they are like my own teeth, a part of my body. As the Rex Co. advertises, they are green corn on the cob which is a good test of teeth, when in season. The Rex Co.'s teeth has my recommendation unqualifiedly.

FREE.

We do not say, favor this or that part of the work, but use the teeth exactly as you would nature's. Use them, but don't abuse them. Keep them clean, and in all probability they will last as long as you do.

And to add emphasis to what we say we give each patient a written guarantee which recites that in the event the Rex Dental Co.'s Alveolar Teeth fail to prove satisfactory and won't hold, this company will replace it with a removable work "Free of Charge."

One reason we issue such a strong and binding guarantee is that the majority of cases which come to us are desperate.

We are the court of last resort.

And yet people hate to give up to the plate even when there are but a couple of teeth left.

A respite of one, two or five years, with a possibility of obtaining three times that much wear, makes them chance the Rex Dental Co.'s Alveolar Method, and especially when this binding guarantee goes with it.

It is one proposition where there is no chance to lose.

Now, friends, we ask you to give us a chance to put your teeth in perfect order, before your case becomes desperate.

So many times you will go to a dentist who knows nothing of the wonderful Rex Dental Co.'s Alveolar system, and let him file down a cut off or pull out good, live, natural teeth to make room for an old-fashioned "bridge" or partial plate.

Don't do this, we beg of you.

Every tooth in your head is worth a thousand dollars. Save them. We can use them.

Come to us and let us at least look your mouth over, free of any charge or obligation, and advise you what is the "best plan" to follow, and we say it in advance—we know.

Don't let yours become a desperate case.

There is no pain, no boring into the jaws, nothing to be afraid of—and it is mostly laboratory work, so you won't be long in the chair.

It is a comfortable place of work, while being done and afterward.

Send for our 40-page free book, "Alveolar Method of Dentistry." Read it carefully. There is what a Grand Army man says of this method:

U. S. Treasury Department, Rex Dental Co. (Inc.), Oakland, Cal.

Dear Sir:—I wish to state that I am very well pleased with the dental work you did for me. I had been to a number of dentists and had various kinds of work done, but I never found any work that equaled the Alveolar Method done only by the Rex Dental Co. (Inc.). Before coming to you my gums were in a very bad condition, but I wish to state that since making your treatment they are in a perfect condition, so I feel that I know what I am talking about when I say I will never have any more trouble with my teeth.

I want to thank you for your courtesy, kindness and carefulness while under your treatment; also for your reasonable terms for so splendid a piece of work.

Will gladly recommend the Rex Dental Co. to any one in need of such services. I wish to state that you never caused me one bit of pain during the treatment.

Yours very truly,

F. H. BAGLEY, Inspector of U. S. Customs, Member Lincoln Post No. 1, California and Naval, C. A. R. Sept 26th, 1909, 1702 Pacific Avenue, Alameda, Cal.

You will find this one of the most instructive books about the teeth ever written.

Refuses to Pay Tax And Is Sent to Jail

GRAFTON, Ill., April 20.—Because J. J. Keon, a Socialist leader, refuses to pay a poll tax of \$1.50 he began yesterday afternoon to serve six months in jail.

The City Hall has been converted into a jail by screening the windows with chicken wire, and Keon declares he will serve the full term rather than pay the tax or work it out at 75 cents a day. He holds such a tax is unconstitutional. Keon's meals will be brought from a nearby hotel and a special deputy has been sworn in to look after him, making the cost of his keep to the city \$2.25 a day.

Married "Celestially" But Has No Claims

SALT LAKE CITY, Utah, April 20.—Although the Supreme Court of Utah decided several years ago that a "celestial marriage," which was never afterward observed, made Anne Hilton the legal widow of the late Dr. J. R. Park and entitled her to the unencumbered estate of the decedent, it was adjudged yesterday in another suit that Mrs. Hilton had no dower rights in property sold by Dr. Park without her signature prior to his death. Such rights, the court held, were forfeited when Mrs. Hilton was married to Hilton and lived as his wife during Park's lifetime.

Berry Ordinance Is Passed in Pasadena

PASADENA, April 20.—Wearying of wrestling with problems of municipal improvement and finance, the City Council turned yesterday to the question of regulating the sale of berries. An ordinance passed its first reading, declaring that boxes of blackberries or strawberries placed on salm must contain not less than one pint or twelve ounces of fruit. Boxes of raspberries or loganberries must hold eight ounces. Disregard of the ordinance will merit a penalty of a \$10 fine or thirty days in the county jail for both.

DEMOCRATS WIN NEW CONGRESSMAN

Former Partner of Late Congressman Perkins Defeats a Republican Boss.

ROCHESTER, N. Y., April 20.—By a majority of more than 5000 the Republicans of Monroe county registered themselves as against George W. Aldridge to fill the unexpired term of the late James Brock Perkins and elected James S. Havens, a Democrat, to Congress. It was not an unexpected victory, for the reason that Republicans themselves were lukewarm for personal reasons in the fight.

Aldridge has been the dictator of the Republican organization in this section for the past ten years. The campaign only lasted seventeen days. The district has been normally Republican by an approximate majority of 6000 for the last twenty years. Perkins was elected by a majority of 10,167 in 1908.

PERSONAL ISSUE.

The Democrats acknowledged that one of the main factors in today's victory was a personal issue raised by Aldridge's record as party boss and evidence presented at the recent fire insurance investigation. Aldridge acknowledged that he received a \$1000 check from Ellish Kennedy, an agent of the fire insurance company, but denied he benefited personally by the transaction. He declared he turned the money into the treasury of the Republican organization.

Havens was helped by the Democratic national committee, which sent such speakers of Charles S. Hamlin of Massachusetts, former assistant secretary of the treasury under President Cleveland, and Eugene N. Fox, the newly elected Congressman from the same State.

The Congressman-elect is a lawyer and was a former partner of Perkins.

GOVERNOR TALK.

In the first dash of victory the friends of Jas. S. Havens, the Democrat who was elected to Congress yesterday by a large plurality in one of the strongest Republican districts in the country, are already talking of Havens for Governor this fall.

Judging from the conservative tenor of the successful candidate's remarks, however, he accepts his victory as bearing little on the political situation in the State except as regards the issue of "bossism."

"That is not wholly a partisan victory," he said. "It is a victory over the things for which Cannon has stood and for the ideals which Governor Hughes upholds."

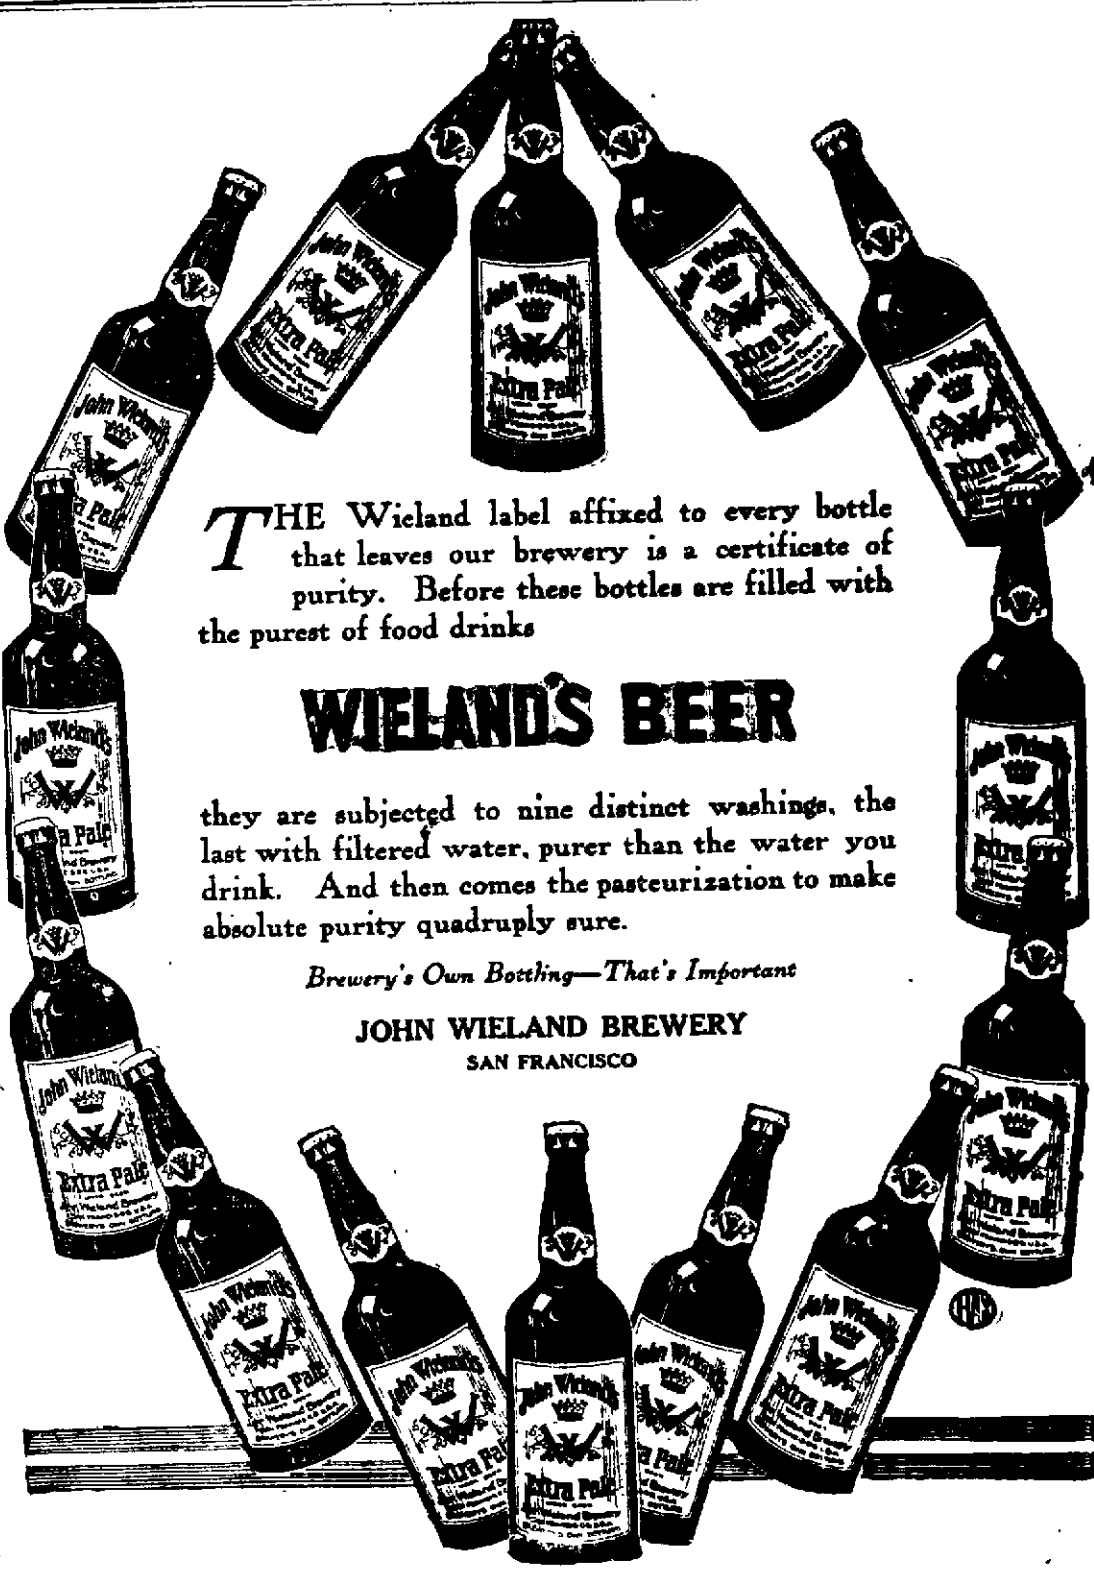

HUGHES VICTORY.

The Hughes Republicans today declare that although Havens' election shows that the people of this district were dissatisfied with the tariff policy of the Republican administration and with the political control of Geo. W. Aldridge, Havens' defeated opponent, it entrenched Governor Hughes and his policies more strongly than ever.

According to Mr. Havens, the high cost of living was mainly responsible for yesterday's revolution.

Revised returns from the towns slightly reduce Havens' plurality, leaving the figures 5,400 for the district.

Chamberlain's Stomach and Liver Tablets invariably bring relief to women suffering from chronic constipation, headache, biliousness, dizziness, nervousness, skin and dyspepsia. Sold by all dealers.

DEFENSE ENDEAVORS TO PREVENT TESTIMONY

Accused's Wife Made Him Stop Bleeding Huntton, Miss Keller Asserts.

KANSAS CITY Mo. April 20.—Following the overruling of the defense objection to testimony not touching directly upon the death of Colonel Thomas H. Swope being introduced into the Hyde murder trial, Miss Pearl Keller a nurse resumed the witness stand at 10:55 o'clock this morning.

The particular point upon which the defense objected was a giving of details of James Moss Huntton's death. The court held that the State was attempting to prove motive on the part of Dr. Hyde in the alleged killing of Huntton.

Miss Keller immediately began to tell of the death of Huntton. He was suffering from a stroke of apoplexy when Dr. Hyde was called. He and Dr. G. T. Twyman bled the patient.

DRUG TWO QUARTS

"Dr. Hyde made the incision in Huntton's arm," said the witness. "After a pint of blood had been drawn Dr. Twyman suggested there had been enough bleeding. Dr. Hyde dissented from this opinion and more blood was drawn."

"Then Mrs. Hyde said to her husband, 'Dearie I think you had better stop bleeding.'"

WANTED NURSE'S AID

The conversation which is said to have taken place between Miss Keller and Dr. Hyde in which the physician is alleged to have sought the aid of the nurse in having himself appointed executor to succeed Huntton was entered into.

While the undertaker was still in the house caring for the body of Huntton until Saturday morning the day following the demise of the nurse. It was Miss Keller who informed him of the death.

WAS STILL ANXIOUS

"When Dr. Hyde came to the house the night of October 1, she continued we met in a hall. He asked me if I had spoken to Colonel Swope regarding the appointment of an administrator to succeed Huntton. I told him I had not. The physician made no reply."

The last day of Colonel Swope's life was entered upon in this point. What was Colonel Swope's condition when you first saw him on the morning of October 3, asked Attorney Reed for the State.

He was bright and cheerful replied the witness.

After Miss Keller had answered a few questions regarding the nature of the Swope's breakfast on the day he died, the noon adjournment was taken.

TRAIN BANDITS BEHIND BARS, BLAKELY THINKS

Fireman Believes Arrest of Franklin and Hanson Has Ended Pursuit.

ENGINEER MARSH CALLED TO IDENTIFY

Alibi of the Two Suspects Believed to Be of Whole Cloth.

Engineer Marsh and Fireman Blakely of the China and Japan fast mails which was held up and robbed by two men near Berkeley Saturday night presented themselves at the police station at noon today and partially identified the two suspects held there who were arrested in San Francisco yesterday afternoon by Detectives McSorley and Green.

Fireman Blakely was shown to the two suspects while they stood in a line up of the prisoners now in the jail. He immediately pointed out Fred Hanson the shorter of the two suspects and stated that in his belief the Oakland police had succeeded in capturing at least one of the bandits. He later declared that he could not be positive of his identification because of the fact that Hanson was talking to him in an assumed voice.

WANTS HIM TO TALK

If I could get from Hanson a statement made to me in his natural voice I would have no trouble in coming to the conclusion that he was one of the bandits and the one with whom I had the most to deal on the night of the holdup. Engineer Marsh exactly picked out the taller of the two suspects as the leader of the bandits but also declared that he could not be positive of the identification. He pointed out however that the taller of the two bandits who held up the train Saturday night had a mole on his forehead between his eyes and Franklin the suspect in the jail bears the same mark of identification.

Captain of Detectives Peterson will not make a statement that he is sure he has the bandits but believes he says that the two men he has arrested are the ones wanted.

Accused of Grafting; Will Be Extradicted

Hoffstot Is Arrested in New York On Charge of Bribery and Conspiracy.

ALBANY N. Y. April 20.—Governor Hughes today granted the requisition for the extradition to Pittsburgh of Frank N. Hoffstot, president of the Pressed Steel Car Company who is under indictment on a charge of conspiracy.

NEW YORK April 20.—F. N. Hoffstot, president of the Pressed Steel Car Company was arrested today on a warrant issued in Pittsburgh charging him with bribery and conspiracy in connection with the Pittsburgh graft and the alleged bribing of Pittsburgh councilmen with \$40,000 in the Hotel Imperial in this city.

Hoffstot was immediately taken to the district attorney's office where Detective Flood was served with a writ of habeas corpus, ordering him to produce forthwith Hoffstot before Judge Holt in the United States Circuit Court. Flood with his prisoner then started for the federal building.

The writ was sued out by John D. Lindsay, attorney for Hoffstot. It is alleged in the indictment on which the warrant was found that the money was shipped to this city.

OAKLAND RAINFALL
The weather bureau reports that 06 of an inch represents the rainfall for the last twenty-four hours making a total of 21.41 inches for the season.

ANTI-SALOON MAN DISAPPEARS SOON AFTER MARRIAGE

LOS ANGELES April 20.—Within less than twenty-four hours after his marriage to a Los Angeles girl, Thomas Hughes a temperance worker who has been engaged in anti-saloon and morality crusades in Cincinnati, Chicago and more recently in San Francisco and Oakland disappeared and his wife appealed to the police yesterday to find him. He vanished after taking one glass of beer his wife said. Hughes married Miss Cora Beck immediately after testifying Saturday at the trial of a hotel proprietor, whose arrest he had procured the day before. Returning home that evening from the hotel where he had registered to secure evidence Hughes brought with him a bottle of beer according to the story Mrs. Hughes told the police. He took one drink and fell and fell to the floor in spasms. Mrs. Hughes hurried out for a physician, but found on her return that her husband had disappeared and she has not seen him since.

FALLS SIX FEET, DIES OF INJURIES

Civil War Veteran Is Killed by Fall From a Low Scaffolding.

BERKELEY April 20.—A fall of less than six feet from a scaffold upon which he was working at 2115 Telegraph avenue Monday afternoon caused a fracture of the skull of Thomas F. Stubbins a contractor who later in the night resided in his death at the Roosevelt Hospital. Physicians are puzzled as to how so short a fall should have caused so serious an injury. No one was around when Stubbins fell and he fell where Stubbins had been working since the accident by workmen Dr. Alfred Bailey was called and had him removed to the Roosevelt Hospital where he died a few hours later. Veteran of the Civil War and a member of the Grand Army of the Republic he was 68 years old. He is said to have lived in California many years his residence being at 5884 Dover street Oakland.

Flonzaley Quartet Finest in World

Thursday afternoon at Ye Liberty playhouse Manager Bishop and Greenbaum will introduce to our musical lovers the finest string quartet in the world, the Flonzaley of Switzerland. As a rule chamber music does not interest the general public notwithstanding the fact that it is one of the most beautiful if not the most beautiful of any form of musical art. The Flonzaley are a virtuoso quartet playing with all the skill and individuality of a soloist. In short nothing like this work of this organization has ever been heard here and any music lovers who miss this concert will have something to sincerely regret.

The program consists of Beethoven's Quartet op. 18 No. 5 Haydn's op. 64 No. 3 and movements from Smerana's "Aus Mein Leben" and Max Regers work in D minor.

Royal Arch Masons Convene Across Bay

SAN FRANCISCO April 20.—The fifty-sixth annual convention of the California Grand Chapter of Royal Arch Masons convened yesterday at Golden Gate Center. The morning and part of the afternoon session was devoted to the reading of the reports of Grand High Priest George H. Monroe of Fresno Grand Treasurer W. Pierce of Oakland Grand Lecturer Harry Ascroft of San Francisco and Grand Secretary W. A. Davies.

INFLUENCE OF VETS AROUSED WOMEN FELT IN RELIGION, SAYS EARL

Femininity Playing Great Part in Awakening to Moral and Social Needs.

LECTURER POINTS OUT REVIVAL IN CHURCHES

American Institutions Devoted to the Laity and Questions of Life.

Questions of the place of woman in the awakening of the nation to moral and social needs problems of the poor pay for ministers of the gospel questions of the place the Bible has come to occupy since assailed by the higher criticism were among the matters taken up by Professor Walter Rauschenbush of the Rochester school before a large audience at Berkeley last night in the second of the E. T. Earl lectures under the auspices of the Pacific Theological Seminary. His topic was the "Social Awakening of the Church." He said in part:

SOCIAL AWAKENING

There is a great social awakening running through the churches of our country. They are concentrating their interest on social questions in a new way. They are adopting a great new realm of ideas and purposes within the domain of their spiritual life. This is a new fact in American life and to any one who comprehends the motive power of religion in history and the plastic force of ideas and purposes in the past life of our nation this fact is big with hope for our country. This awakening has come swiftly. It has become national in its scope only within the last five years. It is a new movement which is committed to the principle of democracy. Those denominations which have most fully expressed and formed the American life originated in the Puritan revolution of the Seventeenth century and carry the traditions of that splendid and earnest life in their thought and organization.

The American churches are churches of the laity. A ministry with a strong clerical tone and spirit will be absorbed in church questions but the laity interested in the practical morality of business life and thus our churches are predisposed to take an interest in social questions.

In the older churches of Europe, women have been assigned a passive and inferior position while in America their influence in church life is very great. The church before the woman's club arose, being the great organ of woman's activities. That fact has thrust the social questions which woman is vitally concerned in the front. The fight against the saloon is woman's fight. It is her class interest. She has fought that battle mainly through the churches. The advanced attitude of the American churches on sexual vice and on war are also largely due to the great influence of women in the American churches. Now woman is becoming an industrial worker and is beginning to take a keen interest in the industrial questions which are to be somewhat remote from her mind.

Sheridan in Port With 23d Infantry

SAN FRANCISCO April 20.—Carrying the officers and the men of the Twenty third Infantry and a large list of civilian passengers the transport Sheridan arrived today from Manila and Bay Port.

The troops under command of Colonel Sharpe will be ordered to Fort Bliss, McIntosh and Clark, Texas.

All must and will be sold. J. A. MUNRO & CO., Auctioneers.

GENERAL CHIPMAN TELLS INSIDE HISTORY AND OLD SOLDIERS EXHIBIT FIRE

General Chipman Tells Inside History and Old Soldiers Exhibit Fire.

BIG HALL IS FILLED WITH G. A. R. MEMBERS

Governor Gillett and Mayor Mott Extend Them a Big Welcome.

As long as a member of the Grand Army of the Republic survives the spirit of patriotism, the love of liberty and loyalty to the flag and the principles which it represents will surely flourish in the land. That fact was clearly demonstrated at the Grand Army department encampment camp fire held at Rice Institute last night, and presided over by Comrade William R. Bair, chairman of the executive committee. The spacious hall was handsomely decorated in the national colors and every foot of space on platform, floor and galleries was occupied by the veterans of the Civil War and their friends, and every patriotic sentiment expressed—and the very atmosphere was surcharged with patriotism—was applauded to the echo.

WELCOMED BY MOTT

In an eloquent speech pointed throughout with patriotic periods which called forth prolonged rounds of applause, Mayor Mott heartily welcomed the Grand Army veterans to Oakland and extended to them the freedom of the city during their stay. No less hearty was the welcome which Governor James N. Gillett gave to the encampment.

"Indeed," he said, "it would be vain to bid you welcome to any State of the union or of the union itself, for the country is yours, as you won and saved it."

Excitement reached its height when General N. Chipman judge advocate at the trial of Captain Henry Wirz commander of Andersonville prison where 13,000 Union soldiers were killed or starved to death as a result of the southern mistreatment declared that the Daughters of the Southern Confederacy were "identifying the breach between the north and south in erecting a station to Wirz south in erecting a station to Wirz overlooking the graves of the union men at Andersonville. He declared that tablets bearing words to the effect that he was a martyr, judicially murdered by the United States government, should be placed at the foot of the monument to the old veterans as they listened to the speech and for a time excitement reached a high pitch.

General Chipman spoke on the subject "Was Captain Wirz a Martyr?" If it is God help us. This man was convicted by the testimony of his own soldiers and a surgeon in the employ of the Confederacy, of the personal murder of thirteen union men, and now they say that he was a martyr and

SLAYER OF WATCHMAN BETRAYED TO POLICE BY FORMER SWEETHEART

She Charges Him With Killing of Deputy Sheriff Lindquist and a Score of Other Crimes About the Bay—Was Drug Store Bandit

Crimes Galore Charged To Four-Time Murderer

Murdered Bookkeeper Schneider at the Hammam Baths on Eddy street in San Francisco. Murdered an electric car motorman in San Francisco. Murdered Deputy Sheriff A. W. Lindquist in Oakland. Murdered Night Watchman Whybark in Santa Clara. Identified as the drug store bandit of San Francisco. Committed numerous burglaries in San Mateo, Santa Clara and San Jose. Held up a bakery in San Francisco. Shot a man in Oakland and laid him up in hospital for six months. Held up several Oakland women on the streets and robbed them of diamonds and other jewelry, together with money. Robbed a saloon in Fitchburg. Held up a woman at the corner of Fifteenth street and Twenty-third avenue, Oakland. Drugged a man in his room in Oakland and robbed him of diamonds. Committed numerous other burglaries and participated in numerous other street robberies in San Francisco and Oakland.

Charles Chifton, the young Mexican who confessed to the murder of Night Watchman Whybark at Santa Clara after his arrest and who is now confined in the county jail at San Jose, has been betrayed by Anna Bell, his former mistress, as the murderer of Deputy Sheriff A. W. Lindquist, who was shot to death in the hold-up of Al Moore's saloon last January on San Pablo avenue, near the Alameda county line. He has also been positively identified by Moore as the thug who attack his place and murdered Lindquist to make good his escape.

Ever since the arrest of Chifton for the Whybark killing the authorities of both Alameda and Santa Clara counties, through the Bell woman, have been fastening upon him a long line of burglaries and desperate hold-ups in Oakland and other transbay cities. He has been identified as the drug store bandit of San Francisco, who also murdered Bookkeeper Schneider at the Burns Hammam Baths on Eddy street, and still another murder, that of an electric car motorman in San Francisco, has been traced to him.

Although but 23 years of age Chifton, according to Sheriff Frank Barnett, has a record of lawbreaking that stamps him as one of the arch-criminals of the age. He has crowded more daring and vicious crimes into his comparatively brief career of lawlessness than the ordinary outlaw could commit in a lifetime.

CURSED THE WOMAN

Chifton is a handsome, demonaire youth and bears none of the characteristics of a confirmed criminal of the most vicious type. He had a foul mouth, however, and the manner in which he cursed the woman who betrayed him in the county jail at San Jose yesterday, in the presence of authorities, gave the officers a good insight into the latent degeneracy of his character.

Aside from the Barnett party and the Sheriff of Santa Clara county, Chief of Police Ed Haley and Detective Ray Starbird of the San Jose police department who worked up the Whybark murder, were present at the interview between Anna Bell and Chifton and at times it looked as if the prisoner would break down under her series of rapid-fire charges and admit everything.

When a confusion seemed to be on the end of his tongue and would muster up renewed courage and rage that the whole story was false and that the Bell woman was trying to railroad him to the gallows for a beating he

(Continued on Page 2)

gave her. On the day before his arrest, it was after Chifton had been taken into custody in San Jose for burglary that the Whybark murder was fastened upon him with such certainty of facts that he finally broke down and confessed to having committed it.

Chifton's downfall dates from the tenth day of last January when he met Anna Bell in Oakland and went to live with her at the Brunswick Hotel, corner of Ninth and Washington streets. With this as headquarters he continued to commit burglaries and holdups, with an occasional murder but without her knowledge until one night while returning home from a theater when an incident occurred which led to the revelation her the next day that he was a criminal.

STOLE GOWN FOR HER

As the couple were passing a store on Broadway near Ninth street, the Bell woman saw a pretty tailor-made gown in the show window. "Gee," she exclaimed, "how I would like to have that!" Chifton said nothing, but the next night he went home with a bundle under his arm. He handed it to the Bell woman with the remark, "Here's your dress." She opened the package and there was the suit she had so much admired.

Gained 23 Pounds Appetite and Strength

MR. MAX SIMONS

use one bottle of Duffy's Malt every week, because it is the purest and best I can buy."—Max Simons, 2619 East Clearfield St., Philadelphia, Pa.

No medicine has stood the test of fifty years like Duffy's Pure Malt Whiskey, and always been found absolutely pure and full of good medicinal virtue. Men and women in all walks of life who have benefited join in singing its praises as the true elixir of life which invigorates body, brain and nerve.

Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and enjoy perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, gripe, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting, weakening conditions. Prescribed by physicians and recognized as a family medicine everywhere.

CAUTION.—When you ask your druggist, grocery or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold in sealed bottles only—never in bulk. Look for the trade-mark the "Old Chemist" on the label, and make sure the seal over the cork is unbroken. Price \$1 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y., for the doctor's advice, containing testimonials and rare common sense rules for health, both sent free.

Merry War Coming With the Squatters

STEWART, R. C., April 20.—A gold camp has sprung up at the mouth of the Salmon river, about two miles from Stewart, on the Alaska side of the boundary line. About 1000 lots have been staked by squatters and there promises to be a merry war over claim-jumping. There is no official government survey, but in order to prevent confusion, the squatters have organized a sort of vigilance committee to band together and stand off squatters who try to jump the claims of original settlers. At a meeting of squatters the settlement was named Portland City, and the squatters broke champagne on their stakes at the celebration.

A report has come from Ketchikan that people from all over Alaska are flocking to the new camp. Reports of rich surface showings up the Salmon river valley has spread very quickly.

Some men are so cautious they are always waiting to begin.

Junior Men Will Be Hosts at Big Supper

BERKELEY, April 20.—A complete program has been arranged for the Junior men's banquet, which is to be held April 22 at the Ocean Cafe in San Francisco. The faculty will be represented by Professors Satchell, O'Neill and Dr. Snitson. The "Hook Worm" quartet, composed of R. B. High, A. C. Saxe, J. B. Marchant and L. V. August, will render several selections. G. A. Work will act as toastmaster, and has announced the following speakers: Jay Dwiglins, on football; Bill Greenlaw, on the national game; G. A. Haines, on the "Whys and Wherefores" of the A. S. U. C.; John Pike, on "Grabbing the coin"; M. R. Brown, who gave a vivid account of the track meet, and "Doc" Gamble will talk on "Co-education."

Leonard to Lecture On Christian Science

Frank Leonard, noted Christian Science lecturer, will deliver an address on the purposes and principles of that religion at the Madisonian theater tomorrow evening. Leonard, who has been prominently affiliated with religious work for several years, is an orator of note, and as a member of the Board of Lectureship of the First Church of Christ, Scientist, in Boston, is making a tour of the continent. The lecture will begin at 8 o'clock sharp.

"Corpse" Turns Over After Being Buried

YOUNGSTOWN, O., April 19.—After being buried a day and a half in Oak Hill cemetery, the body of Mrs. Callie Jefferson, a colored woman, was exhumed after persistent requests from the Rev. Dennis Woodson, who said she had been buried alive.

WOMAN ACCUSES LOVER WITH MURDERING FOUR Slayer of Watchman Betrayed by Former Sweetheart and Charged With Score of Crimes Around the Bay

(Continued from Page 1)

he had broken in the glass and secured the dress.

The Bell woman related the details of this and numerous other robberies that Chifton had told her about to the authorities in the presence of the prisoner. She was unable to give names and places and dates of the numerous crimes in which she implicated Chifton, but she said that he had been in the company of Chief of Detectives Peterson of the Oakland police department and Chief of Police Martin of San Francisco, has begun to shilly and gather evidence upon.

Dr. Wilson of the Gleason-Courneen drug store in San Francisco, has positively identified Chifton as the drug store bandit, and the prisoner's former mistress positively declares that he killed Deputy Sheriff Lindquist and the electric car motorman in San Francisco. She does not know a great deal about the latter killing, but with reference to the slaying of Lindquist she told the authorities that for several days prior to the killing of Moore's saloon and the murder of Lindquist Chifton spotted the place and laid his plans for the robbery.

"GOT HIM GOOD," HE SAID.

On the night of the murder Chifton told his mistress to the theater and upon returning home said to her:

"I have my plans all laid now to get that saloon (Moore's) and get out of here. I am going out and get it."

Chifton was away from his hotel about three hours and when he returned his clothes were wet and muddy and he was in an ugly frame of mind. He told her about the robbery which had occurred and he began to curse his ill luck.

"They got me on the job," he said, "and I had to shoot a man twice who was drunk in plain clothes and who doubtless was a detective. Then in making my getaway another fellow shot at me through the door and I came close to getting hit."

"Did you get the other man?" the Bell woman asked.

"Certainly did," replied Chifton, "and I believe I got him good."

KEPT PAPERS FROM HER.

This was all the details the Bell woman could give the officers about the Lindquist shooting because, as she explained, Chifton would not talk about the robbery and kept from her the newspaper accounts of the crime. She did not even know that Lindquist was dead until Sheriff Barnett told her.

Other crimes that the prisoner's mistress could recall that Chifton had told her about were burglaries and highway robberies in the transbay cities and other crimes. They were the burglary of a tailor shop at Fifteenth and Broadway, the robbery of East street and Twenty-third avenue, East Oakland, and the Piva barber shop at Oakland, East Oakland; a burglary in San Francisco, the robbery of a second-hand store in Oakland and the robbery of a saloon, holding up a number of women in the streets of Oakland and robbing them of diamonds and other jewelry and money.

SHOUP GETS DESERVED PROMOTION FROM S. P. Formerly in Charge of Company's Oil Properties He Is Chosen as Assistant General Manager—Will Control Electric Lines

SAN FRANCISCO, April 20.—Vice-President and General Manager E. E. Calvin of the Southern Pacific Company, announced yesterday the promotion of Paul Shoup to the position of assistant general manager of the company in charge of its electric lines. The promotion went into effect, in fact, on Monday, having received the approval of Julius Kruttschnitt, director of maintenance and operation of the Marjuman railroad system.

According to the order of promotion issued, Mr. Shoup will, in addition to his duties as assistant general manager in charge of the company's electric lines, "perform such other duties as may be assigned to him by the general manager."

Mr. Shoup is one of the most popular men in the Southern Pacific Company's service. In his new position he assumes the management of all of the electric railways controlled by the company, which include the Peninsula Railroad, centered at San Jose, the Los Angeles Pacific Railway, whose lines radiate from Los Angeles, the various lines located on the eastern side of the bay feeding the company's ferries, which are now being electrified and extended, and other properties.

Mr. Shoup has been in the service of the Southern Pacific Company for many years. He has gradually risen step by step.

SOUTHERN WOMEN WIDEN BREACH WITH NORTH

General Chipman Denounces Action of Daughters of the Confederacy.

WIRZ CALLED MARTYR ON MONUMENT TABLET

"Tear It Down," Cry Veterans at Campfire; Excitement Runs High.

(Continued from Page 1)

have erected this statue of him, bearing on its sides inscription to this effect.

General Chipman drew to a close in his speech he said:

"I am prepared to say that the breach between the north and south is widening instead of narrowing and that this is the direct result of the attitude of the Daughters of the American Confederacy."

SPOKE OF LINCOLN.

Dr. E. R. Dille, the well known Methodist minister of San Francisco, spoke on Abraham Lincoln in a brief and interesting talk. He said:

"Lincoln is the best loved American in the hearts of true Americans only by Washington. He was great enough to fight for a great cause and big enough to understand those who fought against him."

"Although he came of illustrious antecedents his life was filled in later years were pure wells of English unadorned." His Gettysburg address stands as the "greatest, briefest and most perfect eulogy ever created."

"The nation that has produced a Lincoln will produce another to take his place in any future crisis which may threaten the public safety."

TRIBUTE TO WOMEN.

Col. C. Mason Kinne paid a beautiful tribute to the women's auxiliary of the G. A. R., the Women's Relief Corps. He declared that the men on the field in the Civil War were aided and strengthened by the women who remained at home and told their loved ones to remain in the field until all the battles were won.

Col. Jesse D. Fuller, pension agent of the Pacific section, talked to the veterans on the pension system and explained to them how his office was conducted. His talk was a most interesting one to the old men assembled as few of them indicated by their attention that they had ever previously heard about the mechanism of the pension service. Col. Fuller explained that he paid 41,000 pensioners each quarter, representing \$1,800,000.

ITALIAN TO LEAVE HIS WIFE AT HOME ON HIS HONEYMOON

GLOBE, Arizona, April 20.—Leaving his bride behind, George Castagnetto, a member of the Italian Colony, left yesterday morning for Italy to spend his honeymoon alone. Castagnetto had planned a visit to his boyhood home for some time, but in the meantime he fell in love with Louise Bonline, and she consented to marry him. But she knew nothing of his plans until he announced them following the wedding Monday night.

A woman is pretty sure to love a man if it's going to make her more miserable than not to.

TWINS PLENTIFUL, TRIPLETS SCARCE

Fruitvale Eagles Seek Infantile Trios for Entrance in Baby Contest.

FRUITVALE, April 20.—Twins galore, but no triplets. From all of Alameda county, which has been scoured from end to end, no triplets can be found at this stage of the contest to enter in the baby show and parade that will be held by the Eagles' street fair and carnival committee.

Hollach is being swamped with letters of good parents who would enter their youngsters in the contest, twins of all descriptions are being for the blue ribbon, but so far triplets have been a lacking and the number is of the committee. Say that if none are entered within the next two days will seek the aid of the census men in discovering handsome trios of Alameda county infants and if the stock has been more generous in his distribution in other neighboring counties it may be that applications for the entrance of triplets in the big contest will be received from other counties as well as Alameda.

MANY BEAUTIES

It is claimed by the members of the baby show committee of the carnival that the most handsome babies have been entered in the race thus far.

There have been in a similar contest about the bay and among the pictures of infant aspirants for prizes are a great many who will make the judges sit up and take notice in making their decisions.

Although the contest did not open until last week already there are a large number of infants entered in the race and it is thought that this feature of the carnival will be one of the most attractive of the many details that have been planned for the five days of merry-making and fun.

Among the first twelve babies that have been entered in the contest should receive first honors. These are: Baby Louise, Oakland; Little Helen Moore, Oakland; F. W. Woodcock, Esq., Fruitvale; Baby Stair Lynn, McHose; Susie Vielhauer, Fruitvale; Alice Vielhauer, Fruitvale; Elsie Dorothy Sonnenwald, Oakland; Merrick M. Rees, Fruitvale; Edwin and Alice Vielhauer, Fruitvale.

UNIQUE LINES

The contest is being carried on along unique lines and a novel idea will be carried out in making the choice of prize-winning trios. It has been arranged that those in the contest will gather at the corner of Leese avenue and East Fourteenth street, each baby to be in a baby carriage which will be wheeled by his mother at that place a parade will be formed, which will make its way along East Fourteenth street to Fruitvale avenue, at which corner the judges' stand will be located, and a stop will be made by each carriage until the merits of its contents can be considered by those appointed. From thence the baby parade will continue to the Lively Lane, which will be the center of the fair grounds, located one block south of East Fourteenth street, on Fruitvale avenue, in the Derby tract. Here the greater part of the throng of visitors will be treated to a sight of the blue-ribbon youngsters.

Every baby carriage will be especially decorated in ribbons and flowers for the occasion and the Knights of the Battle of Alameda county, coming and gurgling for the delight of the thousands of visitors who will be there, will be one of the most pleasing sights of the street fair.

MOST HANDSOME

Prizes will be awarded for the most handsome youngster, one for the best all around babe under one year; another for one between one and two years; one for the most handsome tot between two and three; and another for the best baby between three and four years. No babies over four years will be admitted to the big contest.

Prizes will also be awarded to the heaviest pair of twins, the most artistically decorated baby carriage, and last, but by far the most important, the big special prize for the most attractive triplets that are entered in the race. On account of the lack of triplets are being made for a handsome prize that will probably elicit many of the other awards to be given to the most handsome, heaviest and brightest triplets.

Three fathers and two mothers from Alameda county will act as judges on this occasion. The baby show will be held on the afternoon of May 6th and "Young America" on parade will be one of the most thorough pageants that will line the stretch of East Fourteenth street during the entire carnival. Many other attractive babies that have been entered in the contest will be announced later in the order in which their names were submitted to the committee in charge.

The feature of the carnival that is attracting the most attention at present is the contest that is being waged for queen of the big event. The race for queen will close at 12 o'clock Saturday night and the friends of the six contestants are working earnestly in the behalf of their favorites.

For the last week the race has been such a close one that it is impossible to forecast the winner at this stage. The count of votes made in the last night places Miss Eleanor Hayden in the lead, taking first place from Miss Ada Barry by a narrow margin. These two have been exchanging first and second place for the last two weeks, although it is rumored that large numbers of votes for Miss Lemieux and Miss Ballestrom will be polled on the last day of the contest and an exciting race is looked for on the closing day.

Last night's count resulted as follows: Miss Eleanor Hayden 8129; Miss Ada Barry, 7950; Miss Ruth Lemieux, 7520; Miss E. Ballestrom, 7120; Miss Florence Magnus, 4760; and Miss Virtue Rees, 3700.

Cabrera Re-elected Guatemala President

NEW YORK, April 20.—Manuel Estrada Cabrera was re-elected president of Guatemala in the elections ended yesterday, according to a government cable message received today at the Guatemalan consulate in this city. The election was tranquil and Senor Cabrera was chosen by "an overwhelming majority," the dispatch states.

TAFT & PENNOYER

Several Splendid Mid-Week Values

Embroidered Robes

Japan Sealers Use Motor Boats in Hunt

VICTORIA, B. C., April 20.—Japanese sealers reaching Vancouver yesterday report that motor boats are being used for seal hunting this year by some of the forty vessels sent from Japan to Bering sea. International sealing regulations provide that only sail craft may be used for pelagic sealing, but Japan is not a party to the treaty and maintains that the regulations do not apply.

Standard Oil After The Deadly Mosquito

BAYONNE, N. J., April 20.—The State of New Jersey and the Standard Oil Company have gone into partnership. They are to act together in ridding the city of a menace to the public health in the shape of an extensive tract of marsh land which has heretofore been a prolific breeding place for dangerous mosquitoes. Each is to bear half the expense of draining the land. The Standard has large refineries here.

JUDGE MURPHY

Moral Obligation and Party Treason.

This from the Sacramento Bee is cordially endorsed by THE TRIBUNE:

"The man who votes at the August primary is in honor bound to cast his ballot in November for the candidates of that party with which he has thereby identified himself, provided they be chosen without fraud. He cannot honestly take part in the making of the ticket, and afterwards repudiate it, should it not be to his liking."

Still our Sacramento contemporary cannot fail to be aware that Democrats are registering as Republicans in order that they may vote for a particular Republican candidate for Governor, and that some Republicans are openly saying they will vote for the Democratic nominee if their pet candidate is defeated in the primary. Theodore Bell's supporters at the Los Angeles conference based all their hopes of success on an expected bolt by the Roosevelt League faction in case Hiram Johnson is defeated for the nomination. It is notorious that Democrats are registering as Republicans in Republican counties and that Republicans are registering as Democrats in Democratic counties. This is not because of a change of politics but is due to a desire to help individual candidates in the opposition party.

It is all wrong, of course, and defeats the purpose of the direct primary law. It also destroys party cohesion and party integrity.

We agree with the Bee that a voter is in honor bound to support any ticket he helps nominate even though the particular candidates he voted for fail of the nomination. To do otherwise is bad faith.

The highest moral obligation resting on the citizen is to vote as his conscience dictates and to be governed by patriotic considerations in casting his ballot. But mere prejudice should not be permitted to usurp the place of conscience and judgment, nor should pique and disappointment serve as an excuse for treachery and bad faith. The law gives a citizen the right to vote for whom he chooses at the general election regardless of how he is registered or for whom he has voted in the primary, but the liberty granted by the law is no justification for false registration and betrayal of moral and party obligation. Mr. Bell depends upon treachery in the Republican ranks for success, hence his supporters are boosting for Johnson in the hope and belief that Johnson will be defeated in the primary. Thus we have a group of politicians who are working together in both parties and are Republicans or Democrats with an if. They propose to have their own way or vote the other ticket. They boldly lay down the proposition that acceptance of their candidates and program is the decisive test of good citizenship. It is needless to say that their position is untenable and destructive of political coherency and effective action through party organization.

The Defeat of Aldridge.

The defeat of George W. Aldridge for Congress in the Rochester district is neither a calamity nor a disappointment to Republicans throughout the country. Aldridge has for twenty years been a boss of the most offensive variety, and has been active in obstructing Governor Hughes in his efforts to improve administrative methods and elevate the party organization in the Empire State. He is one of the most obstinate and capable men of the old Platt machine which has been badly discredited by the noisome disclosures made in the Aldridge investigation and the insurance inquiry.

While the overwhelming defeat of Aldridge in a rock-ribbed Republican district will be heralded abroad as a Democratic victory, it is in reality an expression of public opinion regarding Aldridge and his methods. The leading Republican journals in the State of New York openly opposed his election. The New York Tribune said "his defeat would not be a calamity to the Republican party, while his election would be a discredit to the party and the State." The New York Sun said the issue in the Rochester district was one of decency rather than politics.

Neither the State nor the National administration would lift a hand to help Aldridge. The Republican Congressional campaign committee did not extend him any assistance, which was significant of the light in which Aldridge's candidacy was viewed in party circles.

Aldridge was smirched in the insurance investigation, it being shown that he had received \$1000 from the "yellow dog" fund. He acknowledged getting the money, but said he turned it into the party campaign fund, a statement that could neither be proved nor disproved. Having control of the party organization in Monroe county he forced his own nomination in an effort to secure what he deemed would be a popular vindication. He demanded a vote of confidence as a party boss, and received a tremendous rebuke. No doubt all the enemies he made during his long reign as boss fed fat their ancient grudges at the polls. They joined the general uprising against the self-nominated boss, hence the overwhelming majority for the Democratic candidate.

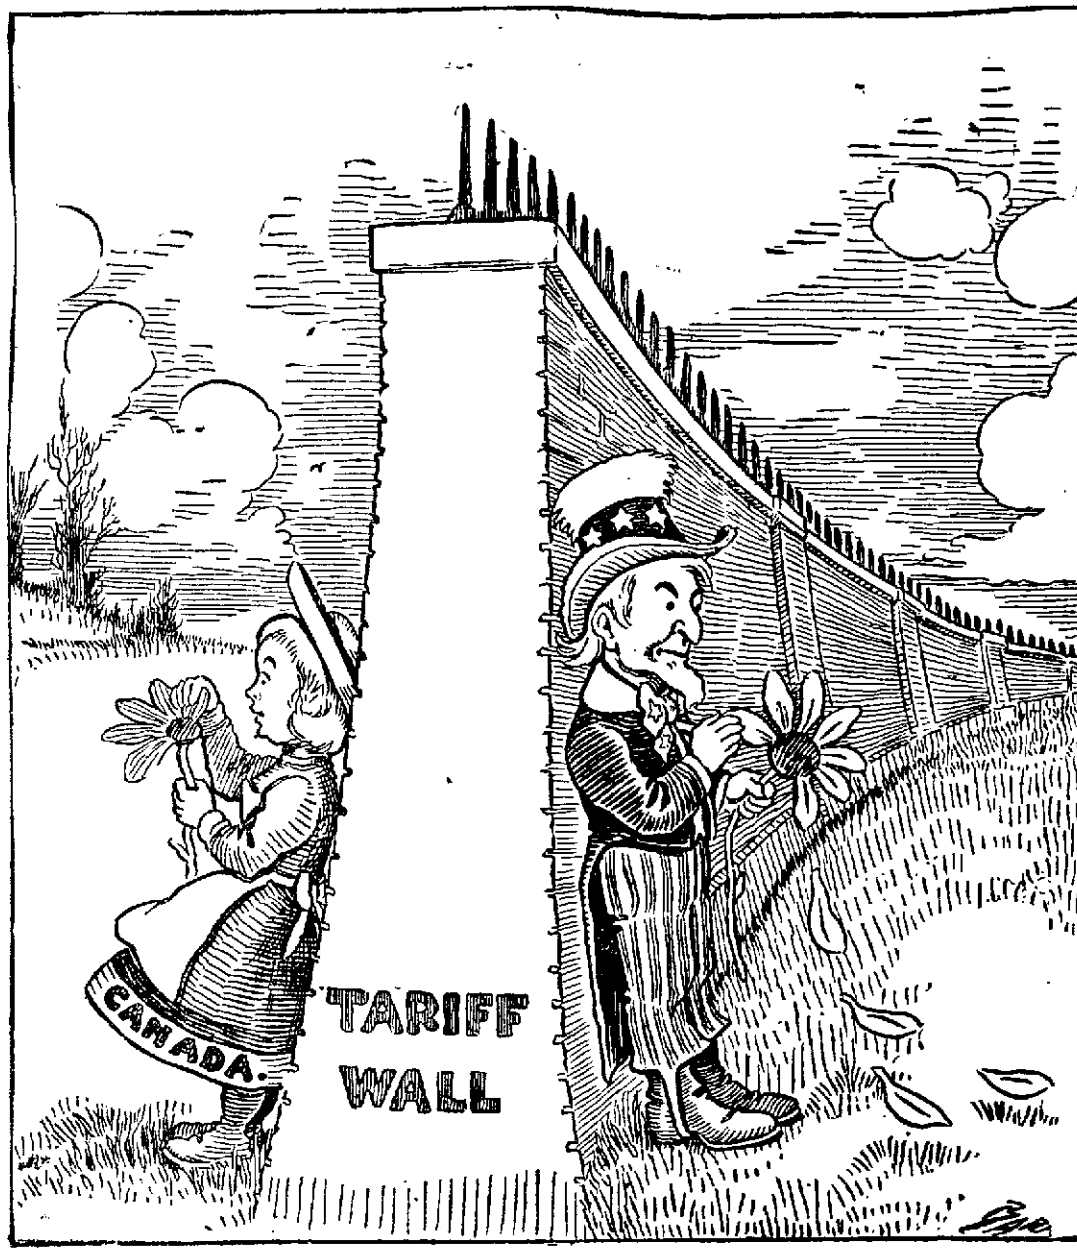

But the result will be of no permanent benefit to the Democrats. Had some Republican of good reputation been nominated instead of Aldridge he would have been elected. At the next election the Republicans will present a creditable candidate, and the district will again be represented by a man in accord with the political convictions of the great majority in Monroe county. Bossism and venal politics have been repudiated in the person of Aldridge, but the citizens of the Rochester district have not ceased to be Republicans and Protectionists.

What is the matter with Bradstreet's? That usually accurate concern seems to have fallen into the habit of misquoting the bank clearings for Oakland. The report for last week gave the bank clearings for Oakland as \$1,270,000. The real figures are \$3,270,362.29, showing a gain over the corresponding week for last year to be 81.6 per cent. This is the third time within six weeks that Bradstreet's has made the error of sending out the figure 1 for the figure 3 in the first column of the Oakland report. We can hardly believe the financial agency has any desire to discredit Oakland, but the frequency of the mistakes made to the disadvantage of this city seriously reflect on the accuracy of the weekly reports sent out by Bradstreet's. But whether the mistakes are intentional or unintentional the Oakland Clearing House and the Oakland Chamber of Commerce should take steps to prevent them in future. The erroneous figures minimize the financial operations of this city and give the outside world a false impression of the importance of Oakland.

The announcement that prayers were offered up for Pittsburg in all the churches of that city leaves one in doubt. Was the praying for relief from the presence of thieves or for their reform?

Gifford Pinchot has shown himself a great conservator of speech since his interview with Roosevelt. The ex-President knows how to stop an unpleasant noise.

SO NEAR AND YET SO FAR

—MINNEAPOLIS JOURNAL.

Timely and Interesting Topics

The vast enterprise for the reclamation of Mesopotamia, by which 12,500,000 acres will be redeemed and irrigated, is the subject of an extensive report from Consul Frederick Simpich, of Baghdad. Since August last from 1500 to 4000 laborers have been at work on the initial projects in Northern Mesopotamia, and substantial progress has been accomplished. It is predicted that agricultural benefits will be derived from the first of these irrigation works within two or three years, at the most.

Orchid imitations are a puzzle to flower scholars. The whole appearance of the flower is suggestive of some insect, sometimes to quite a remarkable degree. It does not seem easy to find any real resemblance, yet no one imagines that it can be accidental. Any one who knows of the bee orchid, a native of Europe, and came upon it for the first time, would at once recognize it. It seems to be a

large velvety brown-backed bee, variegated with yellow. The two lateral petals might serve well for the wings of the insect. In the center of the lip of the orchid there is a small bluish spot like the body of a fly. The two lateral petals are slender and curiously like the antennae of an insect. The whole illusion is complete and suggests to the casual glance that a few flies are hanging on the stem of some plant which has cast its flowers.

"While partisans are disputing as to who reached it first, and while others refuse to believe that anyone accomplished the feat, the North Pole has engaged the attention of the Explorer Nansen in another way," says Fiearo. "He has been putting the finishing touches to his book, 'Nord Tægehejmen'—The Northern Mislands—and the work will soon be made public. Professor Nansen in this book reviews the work of all Arctic explorers and the geographical and ethnological data furnished by them up to the end of the sixteenth century."

Pittsburg is rejoicing in the possession of one of the most heavily insured men in the world. This is Mr. John H. Jones, president of the Pittsburg and Buffalo Coal Company, who has just completed an insurance policy for 200,000 pounds. It has been taken out by his company.

AROUND MT. ETNA

Since the opening, ten years ago, of the railway from Catania to Taormina, on the island of Sicily, Mount Etna has been the most accessible of volcanoes. This miniature line makes a complete circuit of the mountain, rising at one point to 3500 feet above sea level, and those traveling in the first-class compartment, which is fitted with glass sides, are able to enjoy the scenery in perfect comfort.

Before the construction of the railway the journey was full of peril, for Sicily is infested with bandits. Not long ago Foster Rose, who owns the largest sulphur mines in the island, was kidnapped and imprisoned for twenty days, when a ransom of \$15,000 secured his release.

Alexander Nelson Hood, an Englishman, who spends a portion of each year at Bronte, the beautiful estate presented to Admiral Nelson by Ferdinand IV., never goes beyond his garden without a mounted escort.

Bachelor's Musings

One good thing about idleness is how it reconciles you to work till you get back to it. The more head a man has for his own business the more he thinks he has for somebody else's.

Abandoned Farms in New York

Strange as it may seem that there should be in the Empire State enough deserted farms to constitute a public problem, the problem exists and is soon to be subject to a conference in this city.

Ten years ago it might fairly have been said that most deserted farms in the Eastern States were so because of some reason of practical weight—exhausted or stony soil, distance from markets or other unfavorable circumstances. For this reason the state authorities interested themselves generally to encourage the purchase of the vacant farms for summer homes by the city people who enjoy more leisure than income, such as teachers and clergymen.

The rise in the prices of farm produce has changed this condition. Farms that were not worth cultivating ten years ago are well worth it now. Butter and cheese offer good returns, fruit pays well the trouble of any one who will fight insect pests, and even wheat may once again be soan to advantage. From end to end of England grass land has been broken up during the past year or two to grow wheat as it did in the days of the corn laws. What can be done on such limited and expensive land can be done in New York.

So long as there is unemployment in the city and a farm left idle, the problem of bringing together the jobless man and the manless land is worth attention.—New York World.

Some Things Worth Knowing

One of the big Brazilian railroads has just completed a plan by which it will send four of its mechanics to the United States every six months and put them at work in some of our big railroad shops, so that they may become familiar with American methods.

Rumors have been rife that the constitution of young Japan is degenerating year after year, says the Eiben Tushinsha, but they are firmly denied by the authorities, who are of the opinion that, according to the reports of the physicians of conscripts, both constitution and weight are showing an upward tendency, on the whole, and there is not a bit of cause to justify the rumors.

Wellesley recently compiled figures showing that the total valuation of her college buildings is \$1,780,700. Since President Hazard entered upon his office, for it is his sole means of

No Good Gestures

The English temperament can be dignified, but beautiful, never! An Englishman would be ashamed of ascending the stairs if he thought that the action was really a beautiful one. It is all very well for actors, they seem to say. They are paid to wave their hands about, but in real life the best place for unoccupied hands is in pockets.

On the English stage it is possible for the actors to behave like Frenchmen, but on the French stage they have different, more subtle, ideals.

her office in 1899, the number of students has increased from 688 to 1312, the endowment from about \$400,000 to upward of \$800,000. Of the buildings now on the college grounds 11 have been added during this administration.

As a diver the loon excels, and

The finest actors in the world, they act with the reserve and reticence of an average Englishman, the truth being that the stage will always reflect ideals in antagonism to actual life. In England we shall only have a better chance of seeing good acting become general when we have learned to use our hands in real life. When will that be? Perhaps never. In all my life I have seen in England but two fine gestures delivered openly and without restraint, and so rare a phenomenon has caused me to remember them very clearly.—London Express.

livelihood. Not only is he marvelously quick, but he can remain under water for a seemingly endless time. In swimming under water he uses both wings and feet, and can go for several hundred yards in this fashion. The loon, like many other water fowls, sleeps on the water, with his head tucked under his wing.

DESCARTES' LIFE RULES

In the discourse of Descartes upon "The Methods of Using One's Reason Rightly" he says that he had always had an intense desire to learn how to distinguish truth from falsehood in order that he might be clear about his actions and that he might be able to walk surefootedly in this life. • • • Therefore he resolved to set up what he termed "a provisional government," of which these were to be the rules. I give the rules as somewhat broadly paraphrased by Mr. Huxley:

First—That he would submit himself to the laws and religion in which he had been brought up.

Second—That he would act, on all occasions which called for action, promptly and according to the best of his judgment.

Third—That he would seek happiness.

Pointed Paragraphs

Every honest failure is entitled to a fresh start.

No man is so smart that he can do more for himself than good luck can.

Every man thinks that the church he is a member of does the most begging.

If the weather is bad for the crops be an optimist and go to a baseball game.

A man always has a clearer conscience when he telegraphs a lie home about being detained by business than when he telephones it.

ness in limiting his desires rather than in attempting to satisfy them. Fourth—That he would make the search after truth the business of his life.

Descartes was just coming of age when he laid down for himself these rules of life.

EVERYDAY Philosophy

Indifference neither thinks nor talks.

Many a trial seems to be but an attempt to prove all the witnesses liars.

CALIFORNIA OIL FIELD SURPRISES THIS STAFF EXPERT OF ENGLAND

R. J. Fletcher, who is a well

known English oil expert who has

visited in the course of his expe-

rience all of the large oil fields of

the world, is greatly impressed with

the wonders of the oil fields of this

State and says that in many ways

they are the wonder of the world.

He has lately been through the

Coalinga field.

"One of the things that surprises

me," he said the other day, "is

the high wages that are paid in the

oil fields in comparison to what is paid

in other fields. Another surprising

thing is the way in which the com-

panies are capitalized. To think of

companies being organized for

\$200,000 where the property only

covers twenty acres would surprise

people in my country. And then

there is the justification in the fact

that they pay dividends."

Mr. Fletcher represents a lot of

English capital.

HORSBURGH A BENEDICT AT LOS GATOS WEDDING

Southern Pacific General Passenger Agent Surprises Friends—Mrs. Frances Baldwin Sanborn His Bride

James Horsburgh Jr., the general passenger agent of the Southern Pacific Company, gave a genuine surprise to his associates and to the majority of his numerous friends and acquaintances when he abandoned bachelorhood and became a benedict through his marriage at Los Gatos, yesterday, to Mrs. Frances Baldwin Sanborn.

The charming bride is the daughter of

Mrs. Alexander Baldwin, and the scene of the quiet wedding was the latter's beautiful home, "Many Oaks," which is one of the most attractive places in the picturesque foothill town of Los Gatos, located at the south of Los Gatos canyon and at the base of the romantic Santa Cruz mountains.

WEDDING SECRET.

Following the policy which had been adopted by the bride and groom in concealing their engagement and the date of their marriage from the majority of their numerous friends in and out of the official circles, the wedding at high noon yesterday was a quiet ceremony, at which only their immediate relatives were present. Rev. H. Winter, pastor of the Presbyterian Church of Los Gatos, officiated. After the wedding, the happy couple left in the private car "Sunset" to spend the honeymoon in parts unannounced, although it is surmised that it embraced the wonderfully romantic Klamath lake region and a two-months' tour in the Eastern states.

FAMILY PROMINENT.

Mrs. Horsburgh is the widow of the late S. S. Sanborn. During the several years of her widowhood she has lived with her mother at "Many Oaks," which has been noted for its charmingly picturesque surroundings. Her family has been long prominent in San Francisco's best society.

Talks on Teeth

BY
Rex Dental Co.
(INCORPORATED)

"Eating His Meals With Pleasure."

There are two times in a man's life when he can say he enjoys eating his meals.

One is before he loses any teeth and all of them are in good condition—and the next time is when, after years of discomfort, due to lack of teeth, the wearing of an old-fashioned "bridge," or a partial plate, he is fitted out by us with a complete set of the Rex Dental Co.'s Alveolar Teeth, and told to go and eat his meals with pleasure.

ALVEOLARS PART OF HIM.

Frutvale, Cal. Gentlemen: In regard to the Alveolar teeth, I will state that I have had the upper set of that make for two years. They have and are giving me satisfaction. I do not feel that there is anything foreign in my mouth—the Alveolars are part of me. I once had a lower bridge with four molars on it, and I was always poking it with my tongue. It was wobbling up and down all the time, and it was a constant irritation to clean, etc.; irritated gums. Not so with the Alveolars—they are like my teeth, they are part of me. As the Rex Co. advertise, I can eat green corn on the cob, which is a good test of teeth, when in season. The Rex Co. work has my recommendation unqualifiedly.

S. BURT.

We do not say, favor this or that part of the work, but use the teeth exactly as you would nature's. Use them, but don't abuse them; keep them clean, and in all probability they will last as long as you do.

And to add emphasis to what we say we give each patient a written guarantee which recites that in the event the Rex Dental Co.'s Alveolar Teeth fail to prove satisfactory and won't hold, this company will replace it with a removable work "Free of Charge."

One reason we issue such a strong and binding guarantee is that the majority of cases which come to us are desperate.

We are the court of last resort. And yet people hate to give up to the plate even when there are but a couple of teeth left.

A respite of one, two or five years, with a possibility of obtaining three times that much wear, makes them chance the Rex Dental Co.'s Alveolar Method, and especially when this binding guarantee goes with it.

It is one proposition where there is no chance to lose. Now, friends, we ask you to give us a chance to put your teeth in perfect order, before your case becomes desperate.

So many times you will go to a dentist who knows nothing of the wonderful Rex Dental Co.'s Alveolar system, and let him lie down, cut off or pull out good, live, natural teeth to make room for an old-fashioned "bridge" or partial plate.

Don't do this, we beg of you. Every tooth in your head is worth a thousand dollars. Save them. We can use them all.

Come to us and let us at least look your mouth over, free of any charge or obligation, and you will see what is the "best plan" to follow, and we say it in advance—we know.

Don't let your case become a desperate case. There is no pain, no boring into the jaws, nothing to be afraid of. It is mostly laboratory work, so you won't be long in the chair.

It is a comfortable place of work, while being done and afterward. Send for our 10-page free book, "Alveolar Method of Dentistry." Read it carefully. Here is what a Grand Army man says of this method:

U. S. Treasury Department.
Rex Dental Co. (Inc.),
Oakland, Cal.

Dear Sir:—I wish to state that I am very well pleased with the dental work you did for me, and been to a number of dentists and had various kinds of work done, but I never found any work that equals the Alveolar Method done only by the Rex Dental Co. (Inc.). Before coming to you my gums were in a very bad condition, but I wish to state that since taking your treatment they are in a perfect condition, so I feel that I know what I am talking about when I say I will never have any more trouble with my teeth.

I want to thank you for your courtesy, kindness and carefulness while under your treatment, also for your reasonable terms for so splendid a piece of work. Will gladly recommend the Rex Dental Co. to any one in need of such services. I also wish to state that you never caused me one bit of pain during the treatment.

Yours very truly,
P. H. BAGLEY,
Inspector of U. S. Customs,
Member Lincoln Post No. 1, California,
and Nevada G. A. R.,
Sept. 20th, 1899. 1702 Pacific Avenue,
Alameda, Cal.

You will find this one of the most instructive books about the teeth ever written.

YOUR credit is good

Volivia Wins Back His Political Power

CHICAGO, April 20. — At Alton City, Ill., yesterday, Volivia, successor to the late John Alexander Dowd, yesterday won back most of the power he lost at the election a year ago. The election was the second test of strength between the two parties, represented by Volivia, and the Independents, headed by Mayor Ritchey. At a close election last year the Independents won every city office. Yesterday Volivia elected three aldermen and a police magistrate, all the officers voted on.

Gary's "Dry" Spell Seems to Be Over

CHICAGO, April 20. — The long "dry" spell in Gary, Ill., will be broken next Monday owing to the result of the recent election.

Already licenses for 160 saloons have been issued and before the noon doors are thrown open Monday it is predicted the number of licenses will have reached 250.

ELECTROPODES

No Cure—No Pay

We will not give you a lecture on the wonderful cures of rheumatism, electric, but if you have Rheumatism, nervous headaches or other nervous ailments or anything wrong with stomach, liver or kidneys, go at once to your druggist and get a pair of ELECTROPODES.

We don't simply guarantee they will cure you, we still do better than that. To insure you against any uncertainty, we have arranged with your druggist to sign a legal, binding contract with you, agreeing to return the money if they fail to cure. You know your druggist, you know his name on a contract makes you safe, then what don't you try a pair of ELECTROPODES. If they cure, they cost one dollar; if they fail to cure, not one cent.

If your druggist cannot supply you, send \$1.00 direct to the WESTERN ELECTROPODE COMPANY, 257 Los Angeles Street, Los Angeles, California, and they will see that you are supplied.

Mention your Druggist's name.

DEMOCRATS WIN NEW CONGRESSMAN

Former Partner of Late Congressman Perkins Defeats a Republican Boss.

ROCHESTER, N. Y., April 20. — By a majority of more than 5000 the Republicans of Monroe county registered themselves as against George W. Aldridge to fill the unexpired term of the late James Brock Perkins and elected James S. Havens, a Democrat, to Congress. It was not an unexpected victory, for the reason that Republicans themselves were lukewarm for personal reasons in the fight.

Aldridge has been the dictator of the Republican organization in this section for the past ten years. The campaign only lasted seventeen days. The district has been normally Republican by an approximate majority of 6000 for the last twenty years. Perkins was elected by a majority of 10,167 in 1908.

PERSONAL ISSUE.

The Democrats acknowledged that one of the main factors in today's victory was a personal issue raised by Aldridge's record as party boss and evidence presented at the recent fire insurance investigation. Aldridge acknowledged that he received a \$1000 check from Elijah Keon, an agent of the fire insurance companies, but denied he benefited personally by the transfer. He declared he turned the money into the treasury of the Republican organization.

Havens was helped by the Democratic national committee, which sent here such speakers of Charles S. Hamlin of Massachusetts, former assistant secretary of the treasury under President Cleveland, and Eugene N. Ross, the newly elected Congressman from the same State.

The Congressman-elect is a lawyer and was a former partner of Perkins.

GOVERNOR TALK.

In the first flush of victory the friends of Jas. S. Havens, the Democrat who was elected to Congress yesterday, by a large plurality in one of the strongest Republican districts in the country, are already talking of Havens for Governor this fall.

Judging from the conservative tenor of the successful candidate's remarks, of Jas. S. Havens, the Democrat who was elected to Congress yesterday, by a large plurality in one of the strongest Republican districts in the country, are already talking of Havens for Governor this fall.

"That is not wholly a partisan victory," said Havens. "It is a victory over the things for which Cannon has stood and for the ideals which Governor Hughes typifies."

HUGHES VICTORY.

The Hughes Republicans today declare that although Havens' election shows that the people of this district were dissatisfied with the tariff policy of the Republican administration and with the political control of Geo. W. Aldridge, Havens' defeated opponent, it entrenched Governor Hughes and his policies more strongly than ever.

According to Mr. Havens, the high cost of living was mainly responsible for yesterday's revolution.

Revised returns from the towns slightly reduce Havens' plurality, leaving the figures 5,400 for the district.

Chamberlain's Stomach and Liver Tablets invariably bring relief to women suffering from chronic constipation, headache, biliousness, dizziness, rashes, eruptions of the skin and dyspepsia. Sold by all druggists.

PIEDMONT TURKISH BATHS.
Salt water swim. Twenty-fourth and Oakland avenues

Refuses to Pay Tax And Is Sent to Jail

GRAFTON, Ill., April 20. — Because J. J. Keon, a Socialist leader, refuses to pay a poll tax of \$1.50 he began yesterday afternoon to serve six months in jail.

The City Hall has been converted into a jail by screening the windows with chicken wire, and Keon declares he will serve the full term rather than pay the tax or work it out at 75 cents a day. He holds such a tax is unconstitutional.

Keon's meals will be brought from the city's leading hotel and a special deputy has been sworn in to look after him, making the cost of his keep to the city \$3.25 a day.

Married "Celestially" But Has No Claims

SALT LAKE CITY, Utah, April 20. — Although the Supreme Court of Utah decided several years ago that a "celestial marriage," which was never afterward observed, made Anne Hilton the legal widow of the late Dr. J. R. Park and entitled her to the unencumbered estate of the decedent, it was adjudged yesterday in another suit that Mrs. Hilton had no dower rights in property sold by Dr. Park without her signature prior to his death. Such rights, the court held, were forfeited when Mrs. Hilton was married to Hilton and lived as his wife during Park's lifetime.

Berry Ordinance Is Passed in Pasadena

PASADENA, April 20. — Weary of wrestling with problems of municipal improvement and finance, the City Council turned yesterday to the question of regulating the sale of berries. An ordinance passed its first reading, decreasing that boxes of blackberries or strawberries placed on sale must contain not less than one pint or twelve ounces of fruit. Boxes of raspberries or loganberries must hold eight ounces. Disregard of the ordinance will merit a penalty of a \$100 fine or thirty days in the county jail or both.

THE Wieland label affixed to every bottle that leaves our brewery is a certificate of purity. Before these bottles are filled with the purest of food drinks

WIELAND'S BEER

they are subjected to nine distinct washings, the last with filtered water, purer than the water you drink. And then comes the pasteurization to make absolute purity quadruply sure.
